

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stan Xidas  
DOCKET NO.: 16-20594.001-R-1  
PARCEL NO.: 05-34-307-001-0000

The parties of record before the Property Tax Appeal Board are Stan Xidas, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$14,875  
**IMPR.:** \$77,868  
**TOTAL:** \$92,743

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame exterior construction with 2,884 square feet of living area. The dwelling is 65 years old. Features of the home include a partial basement with unfinished area, central air conditioning, a fireplace, and a two-car detached garage. The property has an 8,750 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with dwellings of frame or masonry exterior construction ranging in size from 2,878 to 3,332 square feet of living area. The dwellings are

from 91 to 94 years old. The comparables have full basements, one of which has finished area. One comparable has central air conditioning. Each comparable has a fireplace and a two-car garage. The comparables have improvement assessments ranging from \$69,385 to \$78,981 or from \$23.22 to \$24.11 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$68,264 or \$23.67 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$92,743. The subject property has an improvement assessment of \$77,868 or \$27.00 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,400 to 2,594 square feet of living area. The dwellings are from 69 to 92 years old and have full basements, one of which has finished area. One comparable has central air conditioning. Each comparable has a fireplace and a two-car garage. The comparables have improvement assessments ranging from \$64,872 to \$72,236 or from \$27.03 to \$29.69 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration, none of which are truly similar to the subject property. Except for the board of review comparable #2, both parties' comparables are considerably older in age than the subject property. All the comparables also have varying degrees of dissimilarities to the subject with their dwelling sizes, foundations, and/or lack of central air conditioning. Both parties' comparables have improvement assessments ranging from \$64,872 to \$78,981 or from \$23.22 to \$29.69 per square foot of living area. The subject's improvement assessment of \$77,868 or \$27.00 per square foot of living area falls within the range established by both parties' comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
