

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kate Neal
DOCKET NO.: 16-20596.001-R-1
PARCEL NO.: 05-18-224-011-0000

The parties of record before the Property Tax Appeal Board are Kate Neal, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,032
IMPR.: \$78,057
TOTAL: \$92,089

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco exterior construction with 2,918 square feet of living area. The dwelling is 90 years old. Features of the home include a partial basement that is unfinished, central air conditioning, a fireplace, and a two-car detached garage. The property has an 8,770 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with similar style dwellings of frame, stucco, or frame and masonry exterior construction that range in size from 2,706 to 3,342 square feet of living

area. The dwellings range in age from 66 to 114 years old and have partial basements, one of which has finished area. Each comparable has central air conditioning, one or three fireplaces and a one-car or a two-car garage. The comparables have improvement assessments that range from \$64,248 to \$80,928 or from \$22.24 to \$24.22 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$68,544 or \$23.49 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$92,089. The subject property has an improvement assessment of \$78,057 or \$26.75 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and are located within .25 of a mile from the subject property. The comparables are improved with similar two-story dwellings of masonry or stucco exterior construction that range in size from 2,616 to 2,907 square feet of living area. The dwellings range in age from 91 to 93 years old and have full basements, one of which has finished area. Two comparables have central air conditioning. Each comparable has one or two fireplaces and a one-car or a two-car garage. The comparables have improvement assessments that range from \$74,292 to \$86,135 or from \$28.40 to \$29.69 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparable #1 as well as the board of review comparables #2, #3 and #4. These comparables are most similar to the subject in location, design, age, dwelling size, foundation, and most features. These comparables have improvement assessments ranging from \$65,800 to \$86,135 or from \$22.24 to \$29.63 per square foot of living area. The subject's improvement assessment of \$78,057 or \$26.75 per square foot of living area is within the range established by the best comparables contained in this record. The Board gave less weight to both parties' remaining comparables due to differences in their ages or finished basements when compared to the subject's age and unfinished basement. The Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
