

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Greg Baumeyer
DOCKET NO.: 16-20672.001-R-1
PARCEL NO.: 05-33-201-023-0000

The parties of record before the Property Tax Appeal Board are Greg Baumeyer, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds *No Change* in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$17,578 IMPR.: \$72,178 TOTAL: \$89,756

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,775 square feet of living area. The dwelling is approximately 76 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 2-car garage. The property has a 10,340 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity and contention of law as the bases of the appeal. In support of the inequity argument the appellant submitted information on five equity comparables with the same neighborhood and classification codes as the subject property. The comparables are improved with 2-story dwellings of frame or masonry exterior construction that range in age from 125 to 147 years old. The comparables have partial or full basements, one of which has

finished area, and 2-car to 3-car garages. Two of the comparables have central air conditioning and two comparables have a fireplace. The dwellings range in size from 2,733 to 2,842 square feet of living area and have improvement assessments ranging from \$61,056 to \$67,242 or from \$22.06 to \$23.95 per square foot of living area.

The appellant's attorney also submitted a brief claiming the 2014 three-year median assessment level of the subject should be 8.16% instead of the Cook County Real Property Assessment Classification Ordinance level of assessment for Class 2 property of 10%. In support of this claim, the appellant submitted a printout of Assessment Ratios for 2014 showing the median level of assessment for Class 2 property for New Trier Township for 2014 was 8.16% as determined by the Illinois Department of Revenue. Based on this evidence, the appellant requested the subject's total assessment be reduced to \$67,715.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$89,756. The subject property has an improvement assessment of \$72,178 or \$26.01 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same neighborhood and classification codes as the subject property. The comparables are improved with 2-story dwellings of frame and masonry exterior construction that range in age from 91 to 94 years old. The comparables have partial or full basements, one of which has finished area and 2-car or 2.5-car garages. Three of the comparables have central air conditioning and three comparables have one fireplace. The dwellings range in size from 2,913 to 3,129 square feet of living area and have improvement assessments ranging from \$77,821 to \$87,126 or from \$26.71 to \$27.98 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of nine suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their significantly older ages when compared to the subject property. Less weight was also given to board of review comparable #2 due to its larger dwelling size when compared to the subject property. The Board finds the three remaining board of review comparables are more similar when compared to the subject in location, age, dwelling size, design and most features. These comparables have improvement assessments ranging from \$77,821 to \$81,771 or from \$26.71 to \$27.98 per square foot of living area. The subject's improvement assessment of \$72,178 or \$26.01 per square foot of living area falls below the range established by the best comparables contained in this record. Based on this record, the Board finds the appellant did not demonstrate

with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.
