

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Baker  
DOCKET NO.: 16-20910.001-R-1  
PARCEL NO.: 05-08-101-038-0000

The parties of record before the Property Tax Appeal Board are Paul Baker, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$69,247  
**IMPR.:** \$72,081  
**TOTAL:** \$141,328

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story dwelling of masonry construction with 3,053 square feet of living area. The dwelling is 64 years old. Features of the home include a partial basement that is unfinished, central air conditioning, two fireplaces and a 2-car garage. The property has a 31,476 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables that were located within the same neighborhood code as the subject property. The comparables were similar dwellings of masonry or frame and masonry construction containing from 2,720 to 3,376 square feet of living area. The dwellings range in age from 59 to 62 years old. The homes

feature partial basements, one of which has finished area, one or two fireplaces and a 2-car garage. Two of the comparables have central air conditioning. The comparables have improvement assessments ranging from \$56,495 to \$70,867 or \$16.73 and \$23.13 per square foot of living area. Based on this evidence the appellant requested that the subject's improvement assessment be reduced to \$64,113 or \$21.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$148,167. The subject property has an improvement assessment of \$78,920 or \$25.85 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables that were located within the same neighborhood code as the subject property. One of the comparables was located on the same block as the subject. The comparables were similar dwellings of masonry or frame and masonry construction containing from 2,254 to 3,049 square feet of living area. The dwellings were 60 or 63 years old. The homes feature partial basements, one of which is finished, a fireplace and a 1-car or 2-car garage. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$58,627 to \$74,177 or from \$23.61 to \$26.19 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted a total of six comparable properties for the Board's consideration. The Board gave less weight to the board of review's comparable #3 due to its dissimilar size when compared to the subject. The Board finds the best evidence of assessment equity to be the appellant's comparables, as well as the board of review's comparables #1 and #2. These comparables were most similar to the subject in location, style, size, age and features. These comparables had improvement assessments ranging from \$56,495 to \$74,177 or from \$16.73 to \$26.19 per square foot of living area. The subject's improvement assessment of \$78,920 or \$25.85 per square foot of living area falls above the range established by the best comparables in this record on a total improvement assessment basis and within the range on a per square foot basis. However, after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
