

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jonathan Powell
DOCKET NO.: 16-21039.001-R-1
PARCEL NO.: 05-34-308-012-0000

The parties of record before the Property Tax Appeal Board are Jonathan Powell, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,699
IMPR.: \$110,733
TOTAL: \$125,432

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 3,376 square feet of living area. The dwelling is 9 years old. Features of the home include a full finished basement, central air conditioning, a fireplace, and a 2.5-car detached garage. The property has an 8,647 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with similar class 2-78 dwellings of frame exterior construction that range in size from 3,437 to 3,633 square feet of living area. The dwellings range in age from 18 to 24 years old and

have full basements, one of which has finished area. The comparables have central air conditioning, a fireplace, and a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$95,256 to \$102,443 or either \$27.71 or \$28.20 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$94,663 or \$28.04 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$125,432. The subject property has an improvement assessment of \$110,733 or \$32.80 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of frame or masonry exterior construction that range in size from 2,944 to 3,603 square feet of living area. The dwellings range in age from 4 to 13 years old and have full finished basements. Three comparables have one or two fireplaces. The comparables have central air conditioning and a two-car garage. The comparables have improvement assessments ranging from \$98,448 to \$151,657 or from \$33.44 to \$42.09 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2 and #3 due to their dissimilar unfinished basements when compared to the subject's finished basement. The Board also gives less weight to the board of review comparable #3 as it appears to be an outlier in comparison to the other comparables in this record with its significantly higher total improvement assessment.

The Board finds the best evidence of assessment equity to be the appellant's comparable #1 and the board of review comparables #1, #2, and #4. These comparables are most similar to the subject in location, design, age, dwelling size, foundation, and most features when compared to the subject. The board of review comparable #1 is also identical to the subject in age. These four comparables have improvement assessments ranging from \$95,256 to \$132,947 or from \$27.71 to \$41.47 per square foot of living area. The subject's improvement assessment of \$110,733 or \$32.80 per square foot of living area falls within the range established by the best comparables contained in this record. After considering adjustments to the comparable for differences, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which exists on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
