

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mike Dwyer
DOCKET NO.: 16-21043.001-R-1
PARCEL NO.: 05-29-315-031-0000

The parties of record before the Property Tax Appeal Board are Mike Dwyer, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$25,868
IMPR.: \$104,419
TOTAL: \$130,287

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 4,672 square feet of living area. The dwelling is 89 years old. Features of the home include a full finished basement, central air conditioning, four fireplaces, and a two-car attached garage. The property has a 17,840 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with similar style dwellings of masonry or frame and masonry exterior construction containing from 4,264 to 4,870 square feet of living area. The dwellings range in age from 78 to 84 years old and have

partial unfinished basements. Each comparable has central air conditioning, one to five fireplaces, and a two-car or a three-car garage. The comparables have improvement assessments that range from \$88,335 to \$103,413 or from \$20.15 to \$21.23 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$97,224 or \$20.81 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$130,287. The subject property has an improvement assessment of \$104,419 or \$22.35 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story dwellings of masonry exterior construction containing from 4,044 to 4,933 square feet of living area. The dwellings range in age from 79 to 88 years old and have full basements, one of which has finished area like the subject. Two comparables have central air conditioning. Each comparable has one to three fireplaces and a two-car garage. The comparables have improvement assessments that range from \$93,012 to \$112,455 or from \$21.64 to \$23.00 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gave less weight to the board of review comparable #1 due to its considerably smaller dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables as well as the board of review comparables #2 and #3, which are most similar to the subject in location, exterior construction, design, age, dwelling size and most features. Except for the board of review comparable #3, both parties' remaining comparables have inferior partial or full unfinished basements when compared to the subject's full finished basement. These comparables have improvement assessments ranging from \$88,335 to \$112,455 or from \$20.15 to \$22.80 per square foot of living area. The Board also finds the best comparable in this record to be the board of review comparable #3 with an improvement assessment of \$102,184 or \$21.64 per square foot of living area. The subject's improvement assessment of \$104,419 or \$22.35 per square foot of living area falls within the range established by the most similar comparables contained in this record and is further supported by the board of review comparable #3 which is the best comparable contained in this record. After considering adjustments for differences in both parties' comparables, the Board finds the appellant did not demonstrate with clear and

convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which exists on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
