

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Adrienne Blair
DOCKET NO.: 16-21088.001-R-1
PARCEL NO.: 05-16-106-024-0000

The parties of record before the Property Tax Appeal Board are Adrienne Blair, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$157,960
IMPR.: \$339,232
TOTAL: \$497,192

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 7,373 square feet of living area. The dwelling is 16 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces, and a three-car attached garage. The property has a 35,900 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject. Two comparables are located within the subject's same street and tax block. The comparables are improved with similar Class 2-09 dwellings of masonry or frame and masonry exterior construction containing from 7,464 to

10,098 square feet of living area. The dwellings range in age from 4 to 25 years old and have full finished basements. Each comparable has central air conditioning, two to six fireplaces, and a 3-car, a 3.5-car, or a 4-car garage. The comparables have improvement assessments that range from \$296,836 to \$424,884 or from \$33.33 to \$46.01 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$298,385 or \$40.47 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$497,192. The subject property has an improvement assessment of \$339,232 or \$46.01 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. Two comparables are located within the subject's same street and tax block. The comparables are improved with two-story or three-story dwellings of frame or masonry exterior construction containing from 5,410 to 7,539 square feet of living area. The dwellings range in age from 9 to 16 years old and have partial or full basements, two of which have finished areas. Each comparable has central air conditioning and from two to four fireplaces. Three comparables have a garage ranging in size from a 2-car to a 3.5-car. The comparables have improvement assessments that range from \$293,008 to \$452,340 or from \$54.16 to \$60.41 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 and #2 and the board of review comparables #2, #3, and #4 due to their location, dissimilar design, and/or dissimilar dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #3 and the board of review comparable #1. The Board gave greater weight to these comparables because they are not only located within the subject's same neighborhood code, street and tax block, they are also most similar to the subject in design, exterior construction, age, dwelling size, and most features. These two comparables have improvement assessments of \$343,450 and \$428,560 or \$46.01 and \$60.41 per square foot of living area. The subject's improvement assessment of \$339,232 or \$46.01 per square foot of living area falls within the two best comparables in this record on a square-foot-basis and slightly below with its total improvement assessment. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence

that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which exists on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
