

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Althoff  
DOCKET NO.: 16-21089.001-R-1  
PARCEL NO.: 05-20-225-010-0000

The parties of record before the Property Tax Appeal Board are William Althoff, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$14,960  
**IMPR.:** \$98,623  
**TOTAL:** \$113,583

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 3,223 square feet of living area. The dwelling is 23 years old. Features of the home include a partial basement with unfinished area, central air conditioning, two fireplaces, and a two-car attached garage. The property has a 9,350 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a Class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of frame or frame and masonry exterior construction that range in size from 3,178 to 3,288 square feet of living area. The dwellings range in age from 16 or 51 years old.

Two comparables have a crawl or slab foundation, two comparables have full unfinished basements, and one comparable has a partial basement with finished area. The comparables have central air conditioning, a fireplace, and a two-car garage. The comparables have improvement assessments ranging from \$90,262 to \$99,841 or from \$28.20 or \$31.06 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$98,623 or \$30.60 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$116,001. The subject property has an improvement assessment of \$101,041 or \$31.35 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of masonry exterior construction that range in size from 2,696 to 3,248 square feet of living area. The dwellings range in age from 9 to 16 years old and have full basements, three of which have finished areas. The comparables have central air conditioning, one or two fireplaces, and a two-car garage. The comparables have improvement assessments ranging from \$93,486 to \$107,311 or from \$33.02 to \$39.80 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #3, and #5 and the board of review comparables due to differences in their age, dwelling sizes, foundations, and/or dissimilar finished basements when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2 and #4. These comparables are most similar to the subject in location, design, age, dwelling size, foundation, and features. The two comparables have improvement assessments of \$97,456 and \$99,328 or \$29.64 and \$30.68 per square foot of living area. The subject's improvement assessment of \$101,041 or \$31.35 per square foot of living area falls above the two best comparables contained in this record. After considering adjustments to the comparables for differences, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
