

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stefanie Boron
DOCKET NO.: 16-21110.001-R-1
PARCEL NO.: 04-01-412-046-0000

The parties of record before the Property Tax Appeal Board are Stefanie Boron, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,592
IMPR.: \$61,437
TOTAL: \$80,029

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 3,022 square feet of living area. The dwelling is 31 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a one-car garage. The property has a 16,167 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends contention of law¹ and improvement assessment inequity as the bases of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject property. The

¹ The bases for the appeal was contention of law and assessment equity; however, counsel's legal brief is the same as the inequity argument; uniformity of assessment.

comparables are improved with one-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,960 to 3,010 square feet of living area. The dwellings range in age from 48 to 63 years old and have partial basements, four of which have finished areas. Four comparables have central air conditioning, and each comparable has a fireplace and a 2-car garage. The comparables have improvement assessments ranging from \$45,868 to \$54,267 or from \$15.41 to \$18.33 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$53,126 or \$17.58 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$80,029. The subject property has an improvement assessment of \$61,437 or \$20.33 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with one-story dwellings of masonry exterior construction ranging in size from 2,167 to 3,604 square feet of living area. The dwellings range in age from 27 to 52 years old. One comparable has a slab foundation, and two comparables have full basements, one of which has a finished area. Each comparable has central air conditioning, a fireplace, and a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$49,303 to \$79,472 or from \$22.04 to \$24.50 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board recognizes seven of the comparables are inferior to the subject with their considerably older ages and/or smaller dwelling sizes. The Board gave less weight to the board of review comparables due to their differences in dwelling sizes and/or lack of a foundation when compared to the subject.

The Board finds the best evidence of assessment equity to the appellant's comparables. Although these comparables are considerably older in age, they are most similar to the subject in location, design, exterior construction, dwelling size, and features. These comparables have improvement assessments that range from \$45,868 to \$54,267 or from \$15.41 to \$18.33 per square foot of living area. The subject's improvement assessment of \$61,437 or \$20.33 per square foot of living area is above the range established by the most similar comparables in this record, which appears to be reasonable due to its considerably newer age. After considering adjustments to the comparables for differences when compared to the subject, the Board finds

the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which exists on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
