

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Stuart
DOCKET NO.: 16-21354.001-R-1
PARCEL NO.: 11-19-203-010-0000

The parties of record before the Property Tax Appeal Board are William Stuart, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,629
IMPR.: \$62,905
TOTAL: \$74,534

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,554 square feet of living area. The dwelling is approximately 80 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a one-car garage. The property has a 7,753 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within the same neighborhood assessment code as the subject property. The comparables are improved with two-story dwellings of masonry or frame and masonry exterior construction that range in age from 76 to 108 years old. Two of the comparables have basements, either full or partial and

the remaining comparable has a concrete slab foundation. The comparables have either one-car or two-car garages. Two of the comparables have either one or two fireplaces and one comparable has central air conditioning. The dwellings range in size from 2,889 to 2,982 square feet of living area and have improvement assessments ranging from \$56,265 to \$66,643 or from \$18.87 to \$23.07 per square foot of living area. The appellant requested the total assessment be reduced to \$65,416.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$74,534. The subject property has an improvement assessment of \$62,905 or \$24.63 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same neighborhood assessment code as the subject property. The comparables are improved with two-story dwellings of masonry or frame and masonry exterior construction that range in age from 65 to 95 years old. The comparables have basements, either full or partial and all comparables have garages ranging from two-car to three and one-half car. The comparables have a fireplace and two comparables have central air conditioning. The dwellings range in size from 2,301 to 2,912 square feet of living area and have improvement assessments ranging from \$57,065 to \$71,720 or from \$24.63 to \$28.65 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of seven suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 and #2 due to their older age or dissimilar foundation when compared to the subject property. The Board finds the appellant's comparable #3 and the board of review comparables are more similar when compared to the subject in location, age, size, design and other features. These comparables had improvement assessments ranging from \$23.07 to \$28.65 per square foot of living area. The subject's improvement assessment of \$24.63 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
