

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stephen Auburn
DOCKET NO.: 16-21377.001-R-1
PARCEL NO.: 11-18-320-004-0000

The parties of record before the Property Tax Appeal Board are Stephen Auburn, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$24,031
IMPR.: \$65,688
TOTAL: \$89,719

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 4,692 square feet of living area. The dwelling is approximately 124 years old. Features of the home include a full unfinished basement, three fireplaces and a two-car garage. The property has a 20,026 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within the same neighborhood assessment code as the subject property. The comparables are improved with two-story dwellings of frame or masonry exterior construction that range in age from 101 to 133 years old. Each comparable has a full unfinished basement and a two-car garage. Two

comparables have two or three fireplaces. The dwellings range in size from 4,360 to 4,714 square feet of living area and have improvement assessments ranging from \$53,313 to \$62,408 or from \$12.23 to \$13.60 per square foot of living area. The appellant requested the improvement assessment be reduced to \$61,090 or \$13.02 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$103,044. The subject property has an improvement assessment of \$79,013 or \$16.84 per square foot of living area. The board of review submission disclosed it had reduced the subject's improvement assessment from \$108,525 to \$79,013. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located within the same neighborhood assessment code as the subject property. The comparables are improved with two-story dwellings of stucco or masonry exterior construction that range in age from 123 to 128 years old. Each comparable has a full finished basement and a garage ranging from one-car to three-car. The comparables have one or two fireplaces. The dwellings range in size from 3,348 to 3,971 square feet of living area and have improvement assessments ranging from \$54,036 to \$63,919 or from \$16.10 to \$16.14 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted information on a total of six suggested equity comparables for the Board's consideration. The Board gave less weight to the board of review comparables due to their larger or smaller dwelling size and full finished basement when compared to the subject property. The Board finds the appellant's comparables are more similar when compared to the subject in location, age, dwelling size, design and other features. These comparables had improvement assessments ranging from \$12.23 to \$13.60 per square foot of living area. The subject's improvement assessment of \$16.84 per square foot of living area falls above the range established by the best comparables contained in this record. Based on this record, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
