

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Edmund Scanlan  
DOCKET NO.: 16-21478.001-R-1  
PARCEL NO.: 10-11-202-022-0000

The parties of record before the Property Tax Appeal Board are Edmund Scanlan, the appellant, by attorney Peter D. Verros, of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$11,440  
**IMPR.:** \$70,710  
**TOTAL:** \$82,150

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame exterior construction with 4,052 square feet of living area. The dwelling is approximately 104 years old. Features include a full unfinished basement, central air conditioning, a fireplace and a 2.5-car detached garage. The property has an 8,800 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located from .20 to .50 of a mile from the subject property. The comparables are improved with 2-story dwellings of stucco, frame and masonry or masonry exterior construction that range in age from 88 to 122 years old. The comparables have one or two fireplaces, a full basement, with one having

finished area and from 1-car to 2-car garages. Three comparables have central air conditioning. The dwellings range in size from 4,225 to 4,487 square feet of living area and have improvement assessments ranging from \$61,770 to \$73,178 or from \$13.88 to \$16.31 per square foot of living area.

In further support the appellant attached a comparability analysis for the five comparables. The appellant requested the improvement assessment be reduced to \$56,258 or \$13.88 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$82,150. The subject property has an improvement assessment of \$70,710 or \$17.45 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same neighborhood assessment code as the subject property. The comparables are improved with 2-story dwellings of stucco, frame and masonry or masonry exterior construction that range in age from 85 to 88 years old. The comparables have one or two fireplaces, partial or full basements, with one having finished area and from 1-car to 2-car garages. Three of the comparables have central air conditioning. The dwellings range in size from 2,927 to 3,691 square feet of living area and have improvement assessments ranging from \$53,728 to \$67,287 or from \$18.23 to \$19.00 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of nine suggested equity comparables for the Board's consideration. The Board gave less weight to the board of review's comparables #2 through #4 due to their smaller dwelling size when compared to the subject property. The Board finds the appellant's comparables and the board of review comparable #1 are more similar when compared to the subject in location, age, dwelling size, design and other features. These comparables had improvement assessments ranging from \$13.88 to \$18.23 per square foot of living area. The subject's improvement assessment of \$17.45 per square foot of living area falls within the range established by the best comparables contained in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
