

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David MacArthur
DOCKET NO.: 16-21706.001-R-1
PARCEL NO.: 05-20-407-049-0000

The parties of record before the Property Tax Appeal Board are David MacArthur, the appellant, by attorney Abby L. Strauss, of Schiller Strauss & Lavin PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$33,906
IMPR.: \$64,594
TOTAL: \$98,500

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of brick exterior construction with 3,284 square feet of living area. The dwelling is approximately 58 years old. Features of the home include a partial unfinished basement,¹ central air conditioning, a fireplace and a two-car garage. The property has a 24,219 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$820,000

¹ The appellant's appraisal reported an unfinished basement, although the assessing officials reported a formal recreation room. The Board finds the discrepancy does not prohibit making a determination of the correct assessment but also finds the appraiser inspected the subject property.

as of January 1, 2016. The appraisal was prepared by Audrey Clamage, a certified residential real estate appraiser. In estimating the market value of the subject property, the appraiser developed the sales comparison and cost approach to value.

Under the sales comparison approach, the appraiser analyzed four comparable sales located from .76 to 1.90 miles from the subject property. The comparables consist of one, 2-story, one, 2.5-story and two, 1-story dwellings that range in age from 54 to 112 years old. The dwellings have central air conditioning and two-car garages. Three of the comparables have full basements, two of which are finished. The dwellings range in size from 2,900 to 3,410 square feet of living area and are situated on sites ranging in size from 7,950 to 23,261 square feet of land area. The comparables sold from March to December 2015 for prices ranging from \$705,000 to \$895,000 or from \$235.00 to \$308.62 per square foot of living area including land. The appraiser made adjustments to each comparable for differences from the subject property to arrive at adjusted prices ranging from \$731,360 to \$889,360.

In estimating the cost approach to value, the appraiser estimated the subject's land value at \$95,000. The appraiser then calculated a replacement cost of \$832,560. The subject was depreciated by \$48,043 for a depreciated improvement value of \$784,517. The land was added back to arrive at an estimate of value for the subject property under the cost approach of \$879,500. The appellant requested the total assessment be reduced to \$82,000 which would reflect the appraised value.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$98,500. The subject's assessment reflects a market value of \$985,000 or \$299.94 per square foot of living area, land included, when using the level of assessments for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of the subject's assessment, the board of review submitted information on four comparable sales located within the same neighborhood assessment code as the subject property. The comparables consist of one, 1-5-story and three, 1-story dwellings that range in age from 56 to 66 years old. The dwellings have one or two fireplaces and 2-car garages. Two of the comparables have partial basements, one of which is finished; three comparables have central air conditioning. The dwellings range in size from 2,044 to 3,636 square feet of living area and are situated on sites ranging in size from 13,875 to 23,348 square feet of land area. The comparables sold from April 2015 to November 2016 for prices ranging from \$900,000 to \$1,200,000 or from \$295.65 to \$440.31 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant critiqued the board of review's submission noting the sales presented have not been adjusted for differences from the subject property.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market

value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains an appraisal submitted by the appellant and four comparable sales provided by the board of review. The Board gives the final opinion of value found in the appraisal little weight due to lack of adjustments for age. Comparable sales #1, #3 and #4 were from 92 to 112 years old whereas the subject was 58 years old. Given the record, the Board will consider the raw sales data presented by both parties.

The Board gave less weight to the appellant's comparable sales due to their older age and distant location when compared to the subject property. Less weight was also given to board of review comparable sales #3 and #4 due to their smaller size when compared to the subject property. The Board finds the board of review's comparable sales #1 and #2 are more proximate in time to the January 1, 2016 assessment date and more similar when compared to the subject in location, age, dwelling size and most features. These two comparables sold April 2015 and November 2016 for prices of \$1,075,000 and \$1,200,000 or \$295.65 and \$356.51 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$985,000 or \$299.94 per square foot of living area including land, which falls below the most similar comparable sales contained in the record on a total market value basis and between the two best sales on a per square foot basis. Based on this evidence the Board finds the subject is not overvalued and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
