

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Wendy Mutchnik
DOCKET NO.: 16-21735.001-R-1
PARCEL NO.: 05-07-415-042-0000

The parties of record before the Property Tax Appeal Board are Wendy Mutchnik, the appellant, by attorney Abby L. Strauss, of Schiller Strauss & Lavin PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$28,044
IMPR.: \$26,956
TOTAL: \$55,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of brick exterior construction with 2,210 square feet of living area. The dwelling is approximately 61 years old. Features of the home include a crawl space foundation, central air conditioning, a fireplace and a 2-car garage. The property has a 17,613 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$550,000 as of January 1, 2016. The appraisal was prepared by Audrey Clamage, a certified residential real estate appraiser. In estimating the market value of the subject property, the appraiser developed the sales comparison and cost approach to value.

Under the sales comparison approach, the appraiser analyzed three comparable sales located from .97 to 1.57 miles from the subject property. The comparables consist of 1-story dwellings that are 60 or 62 years old. The dwellings have central air conditioning and 1-car or 2-car garages. Two of the dwellings have full basements, with finished area. The dwellings range in size from 1,700 to 2,287 square feet of living area and are situated on sites ranging in size from 11,220 to 17,300 square feet of land area. The comparables sold from January to December 2015 for prices ranging from \$525,000 to \$610,000 or from \$247.05 to \$308.82 per square foot of living area including land. The appraiser made adjustments to each comparable for differences from the subject property to arrive at adjusted prices ranging from \$550,000 to \$601,800.

In estimating the cost approach to value, the appraiser estimated the subject's land value at \$135,000. The appraiser then calculated a replacement cost new of \$543,550. The subject was depreciated by \$98,234 for a depreciated improvement value of \$445,316. The land was added back to arrive at an estimate value for the subject property under the cost approach of \$580,300.

The appraiser submitted photographs of the subject's exterior depicting chipped or peeling paint and rotting wood at the garage. The appellant requested the total assessment be reduced to \$55,000 which would reflect the appraised value.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$61,000. The subject's assessment reflects a market value of \$610,000 or \$276.02 per square foot of living area, land included, when using the level of assessments for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of the subject's assessment, the board of review submitted information on four comparable sales located within the same neighborhood code as the subject property. The comparables consist of one, 1-story and three, 2-story dwellings that range in age from 49 to 91 years old. The dwellings have partial or full basements, one of which has a finished area, one or two fireplaces and from 1-car to 2.5-car garages. Three of the comparables have central air conditioning. The dwellings range in size from 1,990 to 2,631 square feet of living area and are situated on sites ranging in size from 7,000 to 11,448 square feet of land area. The comparables sold from June 2015 to September 2016 for prices ranging from \$675,000 to \$922,000 or from \$311.67 to \$421.77 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant critiqued the board of review's submission noting the sales presented have not been adjusted for differences from the subject property.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or

construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the January 1, 2016, appraisal submitted by the appellant, estimating the subject property had a market value of \$550,000. The subject's assessment reflects a market value above the best evidence of market value in the record.

The Board gave less weight to the board of review comparable sale #2 due to its dissimilar dwelling design and foundation when compared to the subject property. Less weight was also given to board of review comparable sales #3 and #4 due to their dissimilar foundations, dwelling designs and older ages when compared to the subject property. Furthermore, the Board gave less weight to comparable sale #1 submitted by the board of review due to the fact that one unadjusted comparable does not overcome the appellant's appraisal report that included three comparables that were adjusted by the appellant's appraiser and which the Board has reviewed and appears to be logical and reasonable. Based on this record the Board finds the subject's assessment is not reflective of market value and a reduction in the subject's assessment is warranted commensurate with the appellant's request.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
