

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Burka
DOCKET NO.: 16-21893.001-R-1
PARCEL NO.: 05-34-206-005-0000

The parties of record before the Property Tax Appeal Board are Mark Burka, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,375
IMPR.: \$151,441
TOTAL: \$172,816

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 4,818 square feet of living area. The dwelling is approximately 16 years old. Features of the home include a full finished basement, central air conditioning, two fireplaces and a 2-car garage. The property has an 11,250 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$1,450,000 as of January 20, 2014. The appraisal was prepared by Erin Taffera, a certified residential real estate appraiser. In estimating the market value of the subject property, the appraiser developed the sales comparison approach and cost approach to value.

Under the sales comparison approach, the appraiser analyzed four comparable sales and two active listings located from .27 to 1.14 miles from the subject property. The comparables consist of 2-story dwellings that range in age from 1 to 105 years old. The dwellings have basements with finished area, central air conditioning and 1-car or 2-car garages. The dwellings range in size from 3,472 to 4,800 square feet of living area and are situated on sites ranging in size from 8,800 to 12,320 square feet of land area. Four of the comparables sold from April to December 2013 for prices ranging from \$1,235,000 to \$1,600,000 or from \$276.53 to \$358.21 per square foot of living area including land. Comparables #5 and #6 were listed for \$1,390,000 and \$1,899,000 or \$349.07 and \$546.95 per square foot of living area including land. The appraiser made adjustments to each comparable for differences from the subject property to arrive at adjusted prices ranging from \$1,401,400 to \$1,954,040.

In estimating the cost approach to value, the appraiser estimated the subject's land value at \$500,000. The appraiser then calculated a replacement cost of \$1,178,805. The appraiser estimated physical depreciation of \$196,507 for a depreciated improvement value of \$982,298 with an "as is" value of site improvements of \$5,000. The land was added back to arrive at an estimate of value for the subject property under the cost approach of \$1,487,298.

Based on this evidence, the appellant requested the total assessment be reduced to \$145,000 which would reflect the appraised value.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$172,816. The subject's assessment reflects a market value of \$1,728,160 or \$358.69 per square foot of living area, land included, when using 3000 square feet of land area and when using the level of assessments for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of the subject's assessment, the board of review submitted information on four comparable sales located within the same neighborhood assessment code as the subject property. The comparables consist of 2-story dwellings that are 4 or 16 years old. The dwellings have full basements, three of which have finished area, central air conditioning, one or two fireplaces and 2-car or 3-car garages. The dwellings range in size from 4,081 to 4,460 square feet of living area and are situated on sites ranging in size from 8,985 to 13,440 square feet of land area. The comparables sold from May 2014 to October 2015 for prices ranging from \$1,490,000 to \$1,838,000 or from \$365.11 to \$423.79 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains an appraisal submitted by the appellant and four comparable sales provided by the board of review. The Board finds the appellant's January 20, 2014 appraisal is dated and less indicative of fair market value as of the subject's January 1, 2016 assessment date at issue. Therefore, the Board gives less weight to the conclusion of value contained in the appellant's appraisal.

The Board gave less weight to board of review sale comparable #4 due to its May 2014 sale date which is dated and less indicated of fair market value as of the subject's January 1, 2016 assessment date at issue. The Board finds the three remaining board of review comparable sales sold proximate in time to the January 1, 2016 assessment date at issue and are more similar when compared to the subject in location, age, dwelling size, design and/or most features. These comparables sold from January to October 2015 for prices ranging from \$1,755,000 to \$1,838,000 or from \$410.05 to \$423.79 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$1,728,160 or \$358.69 per square foot of living area including land, which falls below the range established by the three most similar comparable sales contained in the record. Based on this evidence the Board finds the subject is not overvalued and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
