

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Nissen  
DOCKET NO.: 16-22125.001-R-1  
PARCEL NO.: 05-17-300-012-0000

The parties of record before the Property Tax Appeal Board are Thomas Nissen, the appellant, by attorney Christopher M. Caira, of Klafter & Burke in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$21,060  
**IMPR.:** \$45,883  
**TOTAL:** \$66,943

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of stucco exterior construction with 2,064 square feet of living area. The dwelling is approximately 100 years old. Features of the home include a full unfinished basement, a fireplace and a 1-car garage. The property has a 10,800 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables with the same neighborhood and classification codes as the subject property. The comparables are improved with 2-story dwellings of stucco exterior construction that range in age from 100 to 108 years

old. The comparables have partial or full unfinished basements and 2-car or 2.5-car garages.<sup>1</sup> Three of the comparables have fireplaces; one of the comparables has central air conditioning. The dwellings range in size from 1,947 to 2,175 square feet of living area and have improvement assessments ranging from \$42,169 to \$47,005 or from \$20.86 to \$21.77 per square foot of living area. The appellant requested the improvement assessment be reduced to \$43,055 or \$20.86 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$66,943. The subject property has an improvement assessment of \$45,883 or \$22.23 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same neighborhood and classification codes as the subject property. The comparables are improved with 2-story dwellings of stucco exterior construction that range in age from 92 to 104 years old. The comparables have partial or full basements, one of which has finished area, a fireplace and from 1-car to 3.5-car garages. Two of the comparables have central air conditioning. The dwellings range in size from 1,672 to 2,336 square feet of living area and have improvement assessments ranging from \$44,149 to \$64,917 or from \$25.46 to \$27.79 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of eight suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #2 due to its distant location when compared to the subject property. Less weight was also given to board of review's comparables #2 and #3 due to their larger or smaller dwelling size when compared to the subject property. The Board finds the three remaining appellant's comparables and board of review comparables #1 and #4 are more similar when compared to the subject in location, age, dwelling size, design, exterior construction and/or features. These comparables had improvement assessments ranging from \$44,411 to \$54,067 or from \$20.86 to \$27.69 per square foot of living area. The subject's improvement assessment of \$45,883 or \$22.23 per square foot of living area falls within the range established by the best comparables contained in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and

convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
