PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are Witold Wojciechowski, the appellant, by Christopher G. Walsh, Jr., Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,844 square feet of living area. The dwelling is approximately 93 years old. Features of the home include a full unfinished basement, two fireplaces and a 2-car garage. The property has an 11,790 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables with the same neighborhood and classification codes as the subject property. The comparables are improved with 2-story dwellings of masonry exterior construction that range in age from 83 to 91 years old. The comparables have partial or full basements, one of which has finished area, one or two

fireplaces and 1-car or 2-car garages. Three of the comparables have central air conditioning. The dwellings range in size from 2,649 to 3,129 square feet of living area and have improvement assessments ranging from \$53,080 to \$77,443 or from \$20.04 to \$24.75 per square foot of living area. The appellant requested the improvement assessment be reduced to \$66,635 or \$23.43 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$109,401.¹ The subject property has an improvement assessment of \$90,537 or \$31.83 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables² with the same neighborhood and classification codes as the subject property. The homes were described as being located .25 of a mile from the subject property. The comparables are improved with 2-story dwellings of masonry exterior construction that range in age from 87 to 92 years old. The comparables have partial or full basements, one of which has finished area, one fireplace and 1-car or 2-car garages. Two of the comparables have central air conditioning. The dwellings range in size from 2,475 to 3,260 square feet of living area and have improvement assessments ranging from \$53,080 to \$77,831 or from \$20.04 to \$29.93 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted information on a total of eight suggested equity comparables for the Board's consideration with one comparable common to both parties. The Board gave less weight to the board of review comparables #2 and #3 due to their larger or smaller dwelling sizes when compared to the subject property. The Board finds the appellant's comparables and the board of review comparables #1 and #4 are more similar when compared to the subject in location, age, dwelling size, design and most features. These comparables have improvement assessments ranging from \$20.04 to \$29.93 per square foot of living area. The subject's improvement assessment of \$31.83 per square foot of living area falls above the range established by the best comparables contained in this record. Based on this record, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

¹ It appears the board of review failed to recognize the subject property contains two parcels; P.I.N. 05-18-202-020-0000 and P.I.N. 05-18-202-021-0000.

² The appellant's comparable #1 and the board of review comparable #4 appear to depict the same property.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
