

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andrew Pluta  
DOCKET NO.: 16-23329.001-R-1  
PARCEL NO.: 05-21-119-006-0000

The parties of record before the Property Tax Appeal Board are Andrew Pluta, the appellant, by Christopher G. Walsh, Jr., Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$14,235  
**IMPR.:** \$83,385  
**TOTAL:** \$97,620

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame construction. The dwelling is approximately 88 years old and has 3,019 square feet of living area. Features of the home include a partial unfinished basement, a fireplace and a one and one-half car garage. The property has a 7,300 square-foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same neighborhood and classification codes as the subject. The comparables are improved with two-story dwellings of frame or frame and masonry construction. The dwellings are from 74 to 108 years old and contain from 3,161 to 3,327 square feet of living area. Each comparable has an unfinished basement, either full or partial. Two comparables have central air conditioning. Each

comparable has a fireplace and a garage. The comparables have improvement assessments that range from \$66,375 to \$88,348 or from \$20.44 to \$26.55 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$72,879 or \$24.14 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$97,620 was disclosed. The subject property has an improvement assessment of \$83,385 or \$27.62 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties. The comparables have the same neighborhood and classification codes as the subject. The comparables are improved with two-story dwellings of frame construction. The dwellings are from 73 to 101 years old and contain from 2,783 to 3,070 square feet of living area. Two comparables have finished basements, either full or partial, and the other two have unfinished basements, either full or partial. Three comparables have central air conditioning; each comparable has one or two fireplaces; and each comparable has a garage. The comparable properties have improvement assessments that range from \$83,363 to \$121,032 or from \$29.30 to \$40.02 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of eight suggested comparables. The Board finds that all of the comparables submitted for this appeal were very similar to the subject in many characteristics. However, the Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #3 and board of review comparable #4. The Board finds these comparables were the only ones in the record that were similar to the subject in not having central air conditioning. These comparables have improvement assessments that range from \$66,375 to \$89,951 or from \$20.44 to \$29.30 per square foot of living area. The subject's improvement assessment of \$83,385 or \$27.62 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
