

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Challinor
DOCKET NO.: 16-23348.001-R-1
PARCEL NO.: 05-33-205-001-0000

The parties of record before the Property Tax Appeal Board are Mark Challinor, the appellant, by Christopher G. Walsh, Jr., Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,597
IMPR.: \$54,054
TOTAL: \$66,651

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry construction. The dwelling is approximately 90 years old and has 2,184 square feet of living area. Features of the home include a full unfinished basement, a fireplace and a two-car garage. The property has a 7,410 square-foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same neighborhood and classification codes as the subject. The comparables are improved with two-story dwellings of frame, masonry or frame and masonry construction. The dwellings are 93 or 101 years old and contain from 2,046 to 2,173 square feet of living area. Three comparables

have unfinished basements, either full or partial, and one comparable has a full finished basement. One comparable has central air conditioning; each comparable has a fireplace; and three comparables have two-car garages. The comparables have improvement assessments that range from \$40,537 to \$47,388 or from \$19.81 to \$22.00 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$45,296 or \$20.74 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$66,651 was disclosed. The subject property has an improvement assessment of \$54,054 or \$24.75 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties that have the same neighborhood and classification codes as the subject. The comparables are improved with two-story dwellings of frame and masonry or stucco construction. The dwellings are 86 or 95 years old and contain from 2,012 to 2,186 square feet of living area. The comparables have unfinished basements, either full or partial; one or two fireplaces; and garages that range from one-car to two and one-half car. One comparable has central air conditioning. The comparable properties have improvement assessments that range from \$51,430 to \$57,969 or from \$25.56 to \$27.41 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of eight suggested comparables. The Board finds that all of the comparables submitted were very similar to the subject in location, two-story design, age, living area and most features.¹ The eight comparables have improvement assessments that range from \$40,537 to \$57,969 or from \$19.81 to \$27.41 per square foot of living area. The subject's improvement assessment of \$54,054 or \$24.75 per square foot of living area falls within the range established by the comparables submitted for this appeal. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant was not able to demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

¹ The majority of the eight comparables were similar to the subject in features. The subject's features include an unfinished basement, a fireplace, and a garage. Seven of the eight comparables have unfinished basements; each comparable has at least one fireplace; seven comparables have a garage; and six comparables lacked central air conditioning like the subject.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
