

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Keith Zaransky
DOCKET NO.: 16-23358.001-R-1
PARCEL NO.: 05-17-413-004-0000

The parties of record before the Property Tax Appeal Board are Keith Zaransky, the appellant, by Christopher G. Walsh, Jr., Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,700
IMPR.: \$43,700
TOTAL: \$55,400

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction. The dwelling is approximately 98 years old and has 1,900 square feet of living area. Features of the home include a full unfinished basement and a fireplace. The property has a 6,000 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

When the appellant completed Section 2d of the appeal form, the appellant indicated the appeal was being based upon assessment inequity. However, the appellant submitted evidence indicating the appeal was actually based upon overvaluation. In support of the overvaluation argument, the appellant submitted evidence disclosing the subject property was purchased on June 7, 2013, for a price of \$445,000 or for \$234.21 per square foot of living area, land included. In Section IV – Recent Sale Data of the residential appeal form, the appellant stated the property

was purchased from individuals; the parties to the transaction were not related; the property was sold using a realtor; and the property had been advertised for sale with a multiple listing service (MLS). The appellant did not answer the question that asked how long the subject had been exposed to the market. To document the transaction, the appellant submitted an incomplete copy of the settlement statement, which disclosed that at least one commission had been paid to a realty firm. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$55,400. The subject's assessment reflects a market value of \$554,000 or \$291.58 per square foot of living area, land included, when applying the 10% level of assessments for class 2 property in Cook County.

In support of its contention of the correct assessment, the board of review submitted information on four comparable sales that sold from January to October 2015 for prices that ranged from \$680,000 to \$1,213,750 or from \$339.92 to \$661.08 per square foot of living area, land included. The comparables have the same assigned neighborhood and classification codes as the subject. Their sites range from 7,213 to 10,500 square feet of land area. The comparables are improved with two-story dwellings of stucco, frame or frame and masonry construction. The dwellings range in age from 90 to 108 years old and contain from 1,665 to 2,124 square feet of living area. Each comparable has a full unfinished basement and a garage, and three comparables have a fireplace. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board gave little weight to the subject's sale because it did not occur proximate in time to the assessment date at issue. The subject sold on June 7, 2013, which was over two and one-half years prior to the January 1, 2016 assessment date. The Board finds the best evidence of market value in the record to be the comparable sales submitted by the board of review. These properties sold more proximate in time to the assessment date and were similar to the subject in nearly all characteristics. The board of review comparables sold from January to October 2015 for prices that ranged from \$339.92 to \$661.08 per square foot of living area, land included. The subject's assessment reflects a market value of \$234.21 per square foot of living area, including land, which is well below the range of market values established by the best comparable sales in the record. Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
