

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jennifer Reusing
DOCKET NO.: 16-23419.001-R-1
PARCEL NO.: 14-29-320-001-0000

The parties of record before the Property Tax Appeal Board are Jennifer Reusing, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,632
IMPR.: \$88,709
TOTAL: \$110,341

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry construction. The dwelling is approximately 114 years old and has 3,978 square feet of living area. Features of the home include a concrete slab foundation, central air conditioning, a fireplace and a 2-car garage. The property has a 3,380 square-foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with the same neighborhood and classification codes as the subject. The comparables are improved with three, 2-story and two, 3-story dwellings of frame or masonry construction. The dwellings are from 117 to 138 years old and contain from 3,564 to 4,274 square feet of living area. Three

comparables have full unfinished basements, and the other two have concrete slab foundations. Three comparables have central air conditioning, and two have fireplaces. Each comparable has a 2-car garage. The comparables have improvement assessments that range from \$70,254 to \$92,470 or from \$18.55 to \$21.64 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$79,719 or \$20.04 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$110,341 was disclosed. The subject property has an improvement assessment of \$88,709 or \$22.30 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties that have the same neighborhood and classification codes as the subject. The comparables are improved with 2-story dwellings of frame or masonry construction. The dwellings are from 112 to 127 years old and contain from 3,250 to 3,632 square feet of living area. Two comparables have full finished basements, and the other two have full or partial unfinished basements. Each comparable has central air conditioning and a 2-car garage. Two comparables have fireplaces. The comparable properties have improvement assessments that range from \$74,912 to \$95,984 or from \$22.98 to \$27.98 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of nine suggested comparables. The Board finds all of the comparables have significant differences from the subject. The Board finds the appellant's comparables #1, #2 and #4 and the board of review's four comparables have basements that are dissimilar from the subject's concrete slab foundation. Although the appellant's comparables #3 and #5 have concrete slab foundations, they are 3-story dwellings that differ from the subject's 2-story design. Although none of the comparables are sufficiently similar to the subject, the Board finds all nine comparables have improvement assessments that range from \$70,254 to \$95,984 or from \$18.55 to \$27.98 per square foot of living area. The subject's improvement assessment of \$88,709 or \$22.30 per square foot of living area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
