

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Fisher
DOCKET NO.: 16-23616.001-R-1
PARCEL NO.: 11-19-117-011-0000

The parties of record before the Property Tax Appeal Board are Robert Fisher, the appellant, by attorney Scott L. David, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,302
IMPR.: \$34,948
TOTAL: \$43,250

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1½-story dwelling of frame construction. The dwelling is approximately 128 years old and has 1,840 square feet of living area. Features of the home include a partial finished basement and a 2-car garage. The property has a 6,150 square-foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same neighborhood and classification codes as the subject. The comparables are improved with four, 1½-story dwellings of frame or stucco construction. The dwellings are from 125 to 134 years old and contain from 1,897 to 2,354 square feet of living area. The comparables have full or partial unfinished basements. One comparable has central air conditioning, and two comparables have garages, either 1-car or 2-car. The comparables have improvement assessments that range from \$30,823 to \$39,394 or from \$13.11 to \$17.48 per square foot of living area. Based on this

evidence, the appellant requested a reduction in the subject's improvement assessment to \$29,477 or \$16.02 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$43,250 was disclosed. The subject property has an improvement assessment of \$34,948 or \$18.99 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties that have the same neighborhood code as the subject. Three of the comparables have the same assigned classification code as the subject. One of the comparables is located on the same block as the subject. The comparables are improved with three, 1½-story and one, 1-story dwelling of frame construction. The dwellings are from 49 to 135 years old and contain from 1,786 to 2,059 square feet of living area. One comparable has a concrete slab foundation, and three comparables have full basements, one of which is finished. Two comparables have central air conditioning, and two have a fireplace. The comparables have garages that range from 1-car to 3-car. The comparable properties have improvement assessments that range from \$36,795 to \$48,579 or from \$19.68 to \$27.20 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of eight suggested comparables. The Board finds the appellant's comparables #1 and #2 have significantly more living area than the subject and comparable #3 differs from the subject in central air conditioning. As a result, the appellant's comparables #1 through #3 received reduced weight in the Board's analysis. Board of review comparables #2 and #4 have central air conditioning and also received reduced weight. In addition, board of review comparable #4 was significantly newer than the subject and has a concrete slab foundation that was dissimilar from the subject partial finished basement. The Board finds the best evidence of assessment equity to be the appellant's comparable #4 and board of review comparables #1 and #3. The Board finds these comparables are very similar to the subject in age, location, 1½-story design, frame exterior construction, living area and foundation. Moreover, board of review comparable #3 was the only comparable in the record to have a finished basement like the subject. The appellant's comparable #4 and board of review comparables #1 and #3 have improvement assessments that range from \$33,160 to \$42,105 or from \$17.48 to \$20.45 per square foot of living area. The subject's improvement assessment of \$34,948 or \$18.99 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing

evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
