

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Kardamitchis  
DOCKET NO.: 16-24703.001-R-1  
PARCEL NO.: 02-08-400-017-0000

The parties of record before the Property Tax Appeal Board are George Kardamitchis, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,935  
**IMPR.:** \$49,113  
**TOTAL:** \$55,048

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of frame exterior construction with 2,889 square feet of living area. The dwelling is approximately 54 years old. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces and a 2-car garage. The property has a 47,480 square foot site and is located in Inverness, Palatine Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity and contention of law as the bases of the appeal. In support of the inequity argument the appellant submitted information on four equity comparables with the same classification code as the subject property. The comparables have different neighborhood codes than the subject property. The comparables are improved with 2-story dwellings of frame or frame and masonry exterior construction that range in age from 30 to 46

years old. The comparables have partial or full basements, one of which has finished area. All have one or two fireplaces and 2-car or 2.5-car garages. Three of the homes have central air conditioning. The dwellings range in size from 2,736 to 2,940 square feet of living area and have improvement assessments ranging from \$32,167 to \$48,353 or from \$11.69 to \$16.45 per square foot of living area.

The appellant's attorney also submitted a brief claiming the 2014 three-year median assessment level of the subject should be 9.11% instead of the Cook County Real Property Assessment Classification Ordinance level of assessment for Class 2 property of 10%. The appellant also submitted a Settlement Statement disclosing the subject sold July 10, 2013 for a price of \$380,000. The appellant requested the subject's total assessment be reduced to \$34,618 when using the July 2013 sale and the Illinois Department of Revenue's 2014 sales ratio median level of assessment of 9.11%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of 55,048. The subject property has an improvement assessment of \$49,113 or \$17.00 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same neighborhood and classification codes as the subject property. Two of the homes were described as being located .25 of a mile from the subject property. The comparables are improved with 2-story dwellings of frame exterior construction that range in age from 49 to 61 years old. The comparables have partial or full basements, one of which has finished area. All have central air conditioning, one or two fireplaces and 2-car or 2.5-car garages. The dwellings range in size from 2,421 to 2,844 square feet of living area and have improvement assessments ranging from \$42,959 to \$50,010 or from \$17.00 to \$18.53 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of eight suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their distant location when compared to the subject property.

The Board also gave less weight to the purchase of the subject property in July 10, 2013. The Board finds the sale is dated and less indicative of fair market value as of the subject's January 1, 2016 assessment date at issue.

Less weight was also given to board of review comparables #3 and #4 due to their larger dwelling sizes when compared to the subject property. The Board finds board of review comparables #1 and #2 are more similar when compared to the subject in location, age, dwelling size, design and most features. These comparables have improvement assessments of \$49,598 and \$50,010 or \$17.44 and \$17.88 per square foot of living area. The subject's improvement assessment of \$49,113 or \$17.00 per square foot of living area falls below the best comparables established in this record.

Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
