

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Heather Markwart
DOCKET NO.: 16-25082.001-R-1
PARCEL NO.: 02-34-107-001-0000

The parties of record before the Property Tax Appeal Board are Heather Markwart, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,124
IMPR.: \$47,207
TOTAL: \$53,331

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 3,292 square feet of living area. The dwelling is approximately 39 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a two-car garage. The property has a 10,652 square foot site and is located in Rolling Meadows, Palatine Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of frame and masonry exterior construction ranging in size from 3,052 to 3,199 square feet of living area. The comparables range in age

from 27 to 37 years old. Each comparable has a full unfinished basement, central air conditioning, one fireplace, and a 2-car, 2.5-car or 3-car garage. The comparables have improvement assessments ranging from \$17,308 to \$35,773 or from \$5.66 to \$11.72 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$30,517 or \$9.27 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$53,331. The subject property has an improvement assessment of \$47,207 or \$14.34 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located on the same block as the subject property. The comparables are either 34 or 36 years old. The comparables are improved with two-story dwellings of frame exterior construction ranging in size from 2,513 to 2,963 square feet of living area. Each comparable has a full unfinished basement, central air conditioning, a fireplace and two-car garage. The comparables have improvements ranging from \$41,395 to \$47,292 or from \$15.96 to \$16.74 per square foot of living area. The comparables provided by the board of review had similar property index numbers as the subject property. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives the most weight to the board of review comparables as these properties are most similar in location, dwelling size, design, exterior construction, age and features when compared to the subject property. These comparables had improvement assessments ranging from \$41,395 to \$47,292 or from \$15.96 to \$16.74 per square foot of living area. The subject's improvement assessment of \$47,201 or \$14.34 per square foot of living area falls within the overall range but below the range on a square foot basis established by the best comparables in this record. Less weight was given the appellant's comparables due to location, age and/or exterior construction. Less weight was given the appellant's comparables due to differences from the subject in age, exterior construction and/or features. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
