

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ronson Mahla
DOCKET NO.: 16-25084.001-R-1
PARCEL NO.: 02-19-418-032-0000

The parties of record before the Property Tax Appeal Board are Ronson Mahla, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,071
IMPR.: \$20,947
TOTAL: \$32,018

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame exterior construction with 1,470 square feet of living area. The dwelling is approximately 46 years old. Features of the home include a partial finished basement, central air conditioning, a fireplace and a two-car garage. The property has a 19,254 square foot site and is located in Hoffman Estates, Palatine Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with multi-level dwellings of frame or frame and masonry exterior construction with 1,228 or 1,470 square feet of living area. The comparables are 44 or 46 years

old. Each comparable has a partial finished basement and two-car garage. One comparable has central air conditioning and one comparable has a fireplace. The comparables have improvement assessments of \$12,613 to \$18,088 and either \$10.27 or \$12.30 per square foot of living area. Based on this evidence, the appellant has requested a reduction in the subject's improvement assessment to \$17,096 or \$11.63 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$32,108. The subject property has an improvement assessment of \$20,947 or \$14.25 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with multi-level dwellings of frame exterior construction and each comparable has 1,470 square feet of living area. Each dwelling is 46 years old. Each comparable has a partial finished basement and a two-car garage. Three comparables have central air conditioning and a fireplace. The comparables are located along the same street with two comparables within the same block as the subject property. The property index numbers assigned to the comparables demonstrate the comparables are in close proximity to the subject. The comparables have improvement assessments ranging from \$24,270 to \$26,923 or from \$16.51 to \$18.31 per square foot of living area. Based on this evidence, the board of review has requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board gave greater weight and finds the best evidence of assessment equity to be the board of review's comparables because they are located within the same neighborhood code, block and/or street as the subject property. In addition, these comparables are identical to the subject in dwelling size, age, design and garage size and most similar in other features. These comparables have improvement assessments of \$24,270 to \$26,923 or from \$16.51 to \$18.31 per square foot of living area. The subject's improvement assessment of \$20,947 and \$14.25 per square foot of living area is below the range of the best comparables contained in this record. The appellant's comparables were given less weight as they are less similar in location, dwelling size and/or several other features. The Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
