

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joanne Louis
DOCKET NO.: 16-25085.001-R-1
PARCEL NO.: 02-06-203-001-0000

The parties of record before the Property Tax Appeal Board are Joanne Louis, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,468
IMPR.: \$40,597
TOTAL: \$46,065

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry construction with 2,506 square feet of living area. The dwelling is approximately 47 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a two-car garage. The property has a 21,875 square foot site and is located in Barrington, Palatine Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of frame or frame and masonry exterior construction ranging in size from 2,446 to 2,865 square feet of living area. The comparables

range in age from 48 to 54 years old. Each comparable has either a partial or full unfinished basement, central air conditioning, a two-car garage, and either one or two fireplaces. The comparables have improvement assessments ranging from \$34,892 to \$41,399 or from \$14.26 to \$15.31 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$36,763 or \$14.67 per square foot.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$46,065. The subject property has an improvement assessment of \$40,597 or \$16.20 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of masonry exterior construction that range in size from 2,283 to 2,898 square feet of living area. The comparables range in age from 37 to 47 years old. Each comparable has a full basement with one comparable having a finished area, a fireplace, and two-car garage. Three comparables have central air conditioning. The comparables have improvement assessments ranging from \$39,313 to \$48,511 or from \$16.74 to \$19.82 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. Less weight was given the board of review's comparable # 2 due to its full finished basement when compared to the subject's partial unfinished basement. Less weight was given the appellant's comparables due to their frame or frame and masonry exterior construction in contrast with the subject's masonry exterior construction. The other comparables had improvement assessments that ranged from \$39,313 to \$48,511 or from \$16.74 to \$19.82 per square foot of living area. The subject's improvement assessment of \$40,597 or \$16.20 per square foot of living area falls within the overall range established by the best comparables in this record but below the range on a square foot basis. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
