

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Frederick Page  
DOCKET NO.: 16-25095.001-R-1  
PARCEL NO.: 22-31-104-005-0000

The parties of record before the Property Tax Appeal Board are Frederick Page, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,419  
**IMPR.:** \$40,260  
**TOTAL:** \$45,679

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry construction with 3,994 square feet of living area. The dwelling is approximately 7 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a three-car garage. The property has an 11,409 square foot site and is located in Lemont, Lemont Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 3,928 to 3,980 square feet of living area. The comparables range in age from 17 to 25

years old. Each comparable has a full unfinished basement, a fireplace and a 2-car, 3-car or 4-car garage. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$33,741 to \$34,626 and \$8.59 or \$8.70 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$34,588 or \$8.66 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$45,679. The subject property has an improvement assessment of \$40,260 or \$10.08 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are either 10 or 13 years old. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 3,889 to 4,308 square feet of living area. Each comparable has a full unfinished basement, central air conditioning, one or two fireplaces, and a 3-car, 3.5-car or 4-car garage. The comparables have improvement assessments ranging from \$40,640 to \$47,122 or from \$10.35 to \$11.87 per square foot of living area. The comparables provided by the board of review had similar property index numbers as the subject property. Based on this evidence, the board of review requested the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives the most weight to the board of review comparables as these comparables are more similar to the subject in location, design, age, exterior construction and features when compared to the subject property. These comparables had improvement assessments that ranged from \$40,640 to \$47,122 or from \$10.35 to \$11.87 per square foot of living area. The subject's improvement assessment of \$40,260 or \$10.08 per square foot of living area falls below the range established by the best comparables in this record. Less weight was given the appellant's comparables due to differences from the subject in age and/or features. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
