

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gabriel Sikora
DOCKET NO.: 16-26473.001-R-1
PARCEL NO.: 08-24-215-015-0000

The parties of record before the Property Tax Appeal Board are Gabriel Sikora, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,400
IMPR.: \$14,579
TOTAL: \$18,979

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame and masonry construction with 1,072 square feet of living area. The dwelling is approximately 58 years old. Features of the home include a crawl space foundation and a 2.5-car garage. The property has a 8,800 square foot site and is located in Des Plaines, Elk Grove Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables. The comparables are improved with one-story dwellings of frame or frame and masonry exterior construction ranging in size from 1,013 to 1,560 square feet of living area. The comparables range from 61 or 68 years old. Two comparables have full

unfinished basements and one comparable has a concrete slab foundation. One comparable has central air conditioning and one comparable has a fireplace. The comparables have a 1.5-car, two-car, or 2.5-car garage. The comparables have improvement assessments ranging from \$8,683 to \$14,807 or from \$8.57 to \$10.39 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$10,163 or \$9.48 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,979. The subject property has an improvement assessment of \$14,579 or \$13.60 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code and same block as the subject property. The comparables are improved with one-story dwellings of masonry or frame and masonry exterior construction that range in size from 1,072 to 1,306 square feet of living area. Each comparable is 58 years old. Three comparables have full unfinished basements and one comparable has a crawl space foundation. Two comparables have central air conditioning. The comparables have a 1.5-car, two-car or 2.5-car garage. The comparables have improvement assessments ranging from \$16,344 to \$19,827 or from \$14.83 to \$17.49 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2 and #3 as well as the board of review comparables #2, #3 and #4 due to differences in the foundation. The remaining comparables were similar in size and had varying degrees of similarity with respect to features. These comparables had improvement assessments ranging of \$8,683 and \$16,344 or \$8.57 and \$15.25 per square foot of living area respectively. The subject's improvement assessment of \$14,579 or \$13.60 per square foot of living area is supported by the best comparables in this record. After considering adjustments and differences in both parties' comparables, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
