

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dorota Pikulski
DOCKET NO.: 16-28084.001-R-1
PARCEL NO.: 12-28-233-046-0000

The parties of record before the Property Tax Appeal Board are Dorota Pikulski, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,141
IMPR.: \$27,700
TOTAL: \$29,841

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry construction with 2,912 square feet of living area. The dwelling is approximately 57 years old. Features of the home include a full unfinished basement. The property has a 3,893 square foot site and is located in Franklin Park, Leyden Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on five equity comparables with two comparables located in the same neighborhood code as the subject. The comparables are improved with 1.5-story and two-story dwellings of frame exterior construction that range in size from 2,500 to 3,038 square feet of living area. The comparables range in age from 74 to 128 years old. Three comparables have full unfinished basements and

two comparables have partial finished basements. Two comparables have central air conditioning. The comparables have a 1.5-car to 3.5-car garage. The comparables have improvement assessments ranging from \$20,962 to \$23,052 or from \$7.30 to \$8.74 per square foot of living area. Based on this evidence, the appellant requested the improvement assessment be reduced to \$23,208 or \$7.97 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$29,841. The subject property has an improvement assessment of \$27,700 or \$9.51 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code including two comparables on the same street and block as the subject property. The comparables range in age from 57 to 66 years old. The comparables are improved with 1.5-story and two-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,074 to 2,912 square feet of living area. One comparable has a partial unfinished basement, two comparables have full unfinished basements and one comparable has a full finished basement. One comparable has central air conditioning. One comparable has a two-car garage. The comparables have improvement assessments ranging from \$20,482 to \$28,334 or from \$9.68 to \$9.88 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives the most weight to the board of review's comparables #1 and #2 as these comparables are more similar in location, design, age, exterior construction, and features when compared to the subject. These comparables had improvement assessments of \$28,217 and \$28,334 or \$9.69 and \$9.73 per square foot of living area respectively. The subject's improvement assessment of \$27,700 or \$9.51 per square foot of living area falls below the best comparables in this record. Less weight was given the appellant's comparables due to location, design, exterior construction, age and/or features. Less weight was given the board of review's comparables #3 and #4 due to their design, exterior construction and/or features. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
