

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Muhammad Siddiqui
DOCKET NO.: 16-33856.001-R-1
PARCEL NO.: 04-17-300-051-0000

The parties of record before the Property Tax Appeal Board are Muhammad Siddiqui, the appellant(s), by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$36,146
IMPR.: \$15,854
TOTAL: \$52,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-185 of the Property Tax Code (35 ILCS 200/16-185) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 34,425 square foot parcel of land improved with a 56-years old, multi-level, frame, single-family dwelling. The property is located in Northbrook, Northfield Township, Cook County and is a class 3 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of the market value argument, the appellant submitted an appraisal estimating the subject property had a market value of \$520,000 as of June 28, 2016. The appraisal discloses that the subject is owner-occupied.

The appraiser utilized the cost and sales comparison approaches to estimate the subject's market value. No weight was given to the cost approach due to difficulties in determining land value and depreciation.

In the sales comparison approach, the appraiser analyzed seven sales and made adjustments to these sales in estimating the subject's market value. These sales are described as one or two-story or multi-level, single-family dwellings between 38 and 53 years and containing between 2,311 and 3,286 square feet of building area. They sold from September 2015 to June 2016 for prices ranging from \$180.84 to \$260.32 per square foot of building area. After adjustments to these comparables for pertinent factors, the appraisal estimates a market value for the subject under the sales comparison approach of \$520,000. In reconciliation, the appraiser estimated a market value of the subject as of June 28, 2016 at \$520,000.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$56,300. The subject's assessment reflects a market value of \$563,000 using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%. In support of the assessment the board of review submitted equity data on four comparables. These properties are described as multi-level, frame or frame and masonry, single-family dwellings. They contain between 1,682 and 2,240 square feet of building area and have improvement assessments from \$10.30 to \$14.97 per square foot of building area.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The subject's assessment reflects a market value above the best evidence of market value in the record. The appellant's appraiser utilized the cost and sales comparison approaches to value in determining the subject's market value. The Board finds this appraisal to be persuasive because the appraiser personally inspected the subject property, reviewed the property's history, and used similar properties in the sales comparison approach while providing adjustments that were necessary. The Board gives little weight to the board of review's comparables as the information provided was assessment data.

Therefore, the Board finds the subject property had a market value of \$520,000 as of the assessment date at issue. Since market value has been established the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10% shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
