

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Carey Hidaka  
DOCKET NO.: 16-35589.001-R-1  
PARCEL NO.: 04-36-302-015-0000

The parties of record before the Property Tax Appeal Board are Carey Hidaka, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$10,080  
**IMPR.:** \$57,573  
**TOTAL:** \$67,653

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 2,418 square feet of living area. The dwelling is approximately 65 years old. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces and a one-car garage. The property has a 9,600 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject. The comparables are improved with two-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,476 to 2,914 square feet of living area. The comparables range in age from 66 to 89 years old. Each

comparable has a partial or a full basement with one having finished area. Each comparable has a fireplace and a two-car garage. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$48,492 to \$66,205 or from \$19.58 to \$22.72 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$52,398 or \$21.67 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,653. The subject property has an improvement assessment of \$57,573 or \$23.81 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code with one in the same block as the subject property. Three comparables are located within .25 of a mile of the subject. The comparables are improved with two-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,284 to 2,688 square feet of living area. The comparables range in age from 66 to 68 years old. Each comparable has a partial or a full basement with three having finished area. Each comparable has central air conditioning, one or two fireplaces and a one-car or a two-car garage. The comparables have improvement assessments ranging from \$55,470 to \$65,426 or from \$24.09 to \$24.95 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gave most weight to the board of review's comparables as they are similar to the subject in location, design, age, dwelling size and features. These comparables have improvement assessments of \$55,470 to \$65,426 or from \$24.09 to \$24.95 per square foot of living area, respectively. The subject's improvement assessment of \$57,573 or \$23.81 per square foot of living area falls within the total assessment range of the best comparables in this record, but below the range on a per square foot basis. Therefore, the Board finds the assessment is supported by the evidence in this record. The Board gave less weight to the appellant's comparables due to their older age or larger dwelling sizes in contrast to the subject's younger age and smaller dwelling size. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
