

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ahmad Zahdan
DOCKET NO.: 16-35683.001-C-1
PARCEL NO.: 32-20-300-029-0000

The parties of record before the Property Tax Appeal Board are Ahmad Zahdan, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$25,200
IMPR.: \$37,300
TOTAL: \$62,500

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 16,800 square foot parcel of land improved with a 53-year old, one-story, commercial gas station and commercial building containing a total of 4,350 square feet of building area. The property is located in Bloom Township, Cook County and is a class 5 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants' appeal is based on overvaluation. In support of the overvaluation argument, the appellants submitted evidence disclosing the subject property was purchased in June 2015 for a price of \$200,000 or \$45.97 per square foot of living area. The appellants included a copy of the settlement statement which disclosed no fees for the involvement of a real estate broker. The appellant disclosed in Section IV of the petition that the property was not advertised for sale.

In addition, the appellant argued that the 2015 assessment reduction granted by the board of review should be applied by the Property Tax Appeal Board for the 2016 assessment year. The appellant also submitted income and expense statements for the subject property.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$62,500. The subject's assessment reflects a market value of \$250,000 or \$57.47 per square foot of living area using the Cook County Real Property Assessment Classification Ordinance level of assessment for class 5 property of 25%.

In support of the assessment the board of review submitted data on the sale of six retail/service station comparables. These properties sold from February 2012 to December 2016 for prices ranging from \$97.22 to \$400.00 per square foot of building area.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Illinois Supreme Court defined fair cash value as what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing and able to buy but not forced to do so. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d. 428 (1970). In addition, Section 1-50 of the Property Tax Code defines fair cash value as:

The amount for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller. (35 ILCS 200/1-50)

The Property Tax Appeal Board finds the subject's sale does not meet at least one of the fundamental requirements to be considered an arm's-length transaction reflective of fair cash value. The Board finds the preponderance of the evidence shows the subject property was not advertised or exposed for sale on the open market. Therefore, the subject's sale price was given little weight and is not considered indicative of fair market value.

Illinois Courts has stated fair cash value is synonymous with fair market value and is defined as the price a willing buyer would pay a willing seller for the subject property, there being no collusion and neither party being under any compulsion. Ellsworth Grain Company v Property Tax Appeal Board, 172 Ill.App.3d 552, 526 (4th Dist. 1988). Although the appellant's evidence may suggest the subject's transaction was between a willing, knowledgeable buyer and seller, the Board finds the transaction was not advertised for sale in the open market and is not typical of the due course of business and trade. Thus, the general public did not have the same opportunity to purchase the subject property at any negotiated sale price.

The Board further finds that the board of review submitted six sales comparable properties that support the subject's market value based on its assessment.

Moreover, the Board gives no weight to the appellant's argument that the 2015 board of review reduction should be applied by the Board. The Board rules require that all appeals before the Board be de novo with no weight be given to any prior actions by the local board of review. 86 Ill.Admin.Code §1910.50(a).

Finally, the appellant submitted documentation showing the income and expenses of the subject property. The Board gives the appellant's argument little weight. In Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970), the court stated:

[I]t is the value of the "tract or lot of real property" which is assessed, rather than the value of the interest presently held. . . [R]ental income may of course be a relevant factor. However, it cannot be the controlling factor, particularly where it is admittedly misleading as to the fair cash value of the property involved. . . [E]arning capacity is properly regarded as the most significant element in arriving at "fair cash value".

Many factors may prevent a property owner from realizing an income from property that accurately reflects its true earning capacity; but it is the capacity for earning income, rather than the income actually derived, which reflects "fair cash value" for taxation purposes. Id. at 431.

Actual vacancy, expenses and income can be useful when shown that they are reflective of the market. Although the appellant's attorney made this argument, the appellant did not demonstrate through an expert in real estate valuation that the subject's actual income and expenses are reflective of the market. To demonstrate or estimate the subject's market value using income, one must establish, through the use of market data, the market rent, vacancy and collection losses, and expenses to arrive at a net operating income reflective of the market and the property's capacity for earning income. The appellant did not provide such evidence and, therefore, the Board gives this argument no weight and finds a reduction based on market value is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
