Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels containing a one-story dwelling of stucco exterior construction with 1,508 square feet of living area. The dwelling is approximately 66 years old. Features of the home include a partial unfinished basement, central air conditioning, one fireplace and a 2-car garage. The property has a 6,600 square foot site located in Northfield, Northfield Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with one-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 1,535 to 1,715 square feet of living area. The comparables range in age from 60 to 70 years old.

One comparable has a full unfinished basement and two comparables each have a concrete slab foundation. One comparable has one fireplace. Each comparable has a 1-car or 1.5-car garage. The comparables have improvement assessments ranging from \$25,660 to \$27,542 or \$16.06 and \$16.72 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$17,681 or \$16.43 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,872¹. The subject property has an improvement assessment of \$26,682 or \$17.69 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with one-story dwellings of masonry or frame and masonry exterior construction ranging in size from 1,204 to 1,440 square feet of living area. The comparables range in age from 60 to 65 years old. Each comparable has a partial or a full basement with one having finished area. One comparable has central air conditioning. Each comparable has one or two fireplaces and a 1-car or 1.5-car garage. The comparables have improvement assessments ranging from \$25,926 to \$28,959 or from \$18.25 to \$21.53 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six² suggested comparables for the Board's consideration. The Board gives more weight to the appellant's comparable #2 and the board of review's comparables #2 and #3 as they were most similar to the subject property in location, design, age, dwelling size and features. These comparables have improvement assessments ranging from \$25,926 to \$28,959 or from \$16.51 to \$21.53 per square foot of living area. The subject's improvement assessment of \$26,682 or \$17.69 per square foot of living area falls within the range established by the best comparables in this record. The Board gave less weight to the appellant's comparables #1 and #3 and the board of review comparable #4 due to differences in their foundations when compared to the subject property. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

¹ The "Board of Review Notes on Appeal" only included information for property parcel number 04-24-306-021-0000.

² The board of review's comparable #1, 04-24-306-022-0000, was the second parcel number for this appeal, but shown in the Grid Analysis as a comparable.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
