

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dahai Huang
DOCKET NO.: 16-36137.001-R-1
PARCEL NO.: 06-17-311-054-0000

The parties of record before the Property Tax Appeal Board are Dahai Huang, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,430
IMPR.: \$12,477
TOTAL: \$14,907

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story townhome of masonry exterior construction with 1,343 square feet of building area. The building is approximately 24 years old. Features of the home include a concrete slab foundation, central air conditioning and a one-car garage. The property has a 5,400 square foot site and is located in Elgin, Hanover Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject. The comparables are improved with two-story townhomes of frame exterior construction ranging in size from 1,358 to 1,566 square feet of living area. The comparables are either 18 or 25 years old. Each comparable has a concrete slab

foundation and a one-car garage. Three comparables have central air conditioning. One comparable has one fireplace. The comparables have improvement assessments ranging from \$7,308 to \$9,276 or from \$5.19 to \$6.83 per square foot of building area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$8,045 or \$5.99 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$14,907. The subject property has an improvement assessment of \$12,477 or \$9.29 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. One comparable is in the same block and two comparables are within .25 of a mile of the subject. The comparables are improved with one-story or two-story townhomes of frame exterior construction ranging in size from 1,223 to 1,374 square feet of living area. The comparables range in age from 24 to 31 years old. One comparable has a partial unfished basement and three comparables have a concrete slab foundation. The comparables have improvement assessments ranging from \$11,675 to \$12,676 or from \$9.20 to \$9.96 per square foot of building area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gave most weight to the appellant's comparables and the board of review's comparables #1 and #2 as they are most similar to the subject property in location, design, exterior construction, age, building size, foundation and features. These comparables have improvement assessments ranging from \$7,308 to \$12,676 or from \$5.19 to \$9.33 per square foot of building area. The subject's improvement assessment of \$12,477 or \$9.29 per square foot of building area falls within the range established by the best comparables in this record and is well supported. The Board gave less weight to the board of review's comparables #3 and #4 due to their dissimilar designs and/or partial unfished basement when compared to the subject and its inferior concrete slab foundation. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
