Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of seven condominium units within a 27-year old, multi-story, eight-unit condominium building. The property is located in Morton Grove, Niles Township, Cook County and is classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted sales information on one subject condominium unit. This unit sold in 2017 for a total

value of \$424,000. The appellant then reduces the sale figures by 15% to account for personal property and then applies the percentage of ownership for this unit to arrive at a total value for the building as a whole of \$1,645,600. The appellant then applies the percentage of ownership of the units under appeal to arrive at a requested market value of \$1,439,900. The appellant then applies an incorrect median level of assessment to arrive at a requested assessment for each unit.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment is \$152,460. This assessment reflects a market value of \$1,524,600 when using the level of assessment for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of the assessment, the board of review submitted sales information on one subject condominium unit. This unit sold in 2017 for a total value of \$424,000. The board of review then applied the total percentage of ownership for this unit to arrive at total value for the building as a whole of \$1,963,000. The board of review then applied the percentage of ownership of the units under appeal to arrive at a value of \$1,694,000.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board also finds the best evidence of market value to be the one unit that sold in 2017 for \$242,000 as submitted by both parties. The Board gives no weight to the appellant's adjustment for personal property as there is no evidence of this in the record. Applying the percentage of ownership for the unit sold yields a value for the building as a whole of \$1,936,000 and a value for the units under appeal of \$1,694,000. Based on this record the Board finds the subject units sold for values above the board of review's market values currently reflected by the assessments and a reduction is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
