

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mayank Malik
DOCKET NO.: 16-38832.001-R-1
PARCEL NO.: 07-25-309-004-0000

The parties of record before the Property Tax Appeal Board are Mayank Malik, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,187
IMPR.: \$22,099
TOTAL: \$27,286

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame exterior construction with 1,396 square feet of living area. The dwelling is approximately 42 years old. Features of the home include a full finished basement, central air conditioning, a fireplace, and a two-car garage. The property has a 7,980 square foot site and is located in Elk Grove Village, Schaumburg Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of frame exterior construction containing 1,765 square feet of living area. The dwellings are either 45 to 46 years old. One comparable

has a slab foundation and the remaining two comparables are described as having a “Craw and Formal Rec. Room.” One comparable has central air conditioning, and each comparable has one fireplace and a two-car garage. The comparables have improvement assessments ranging from \$18,007 to \$19,689 or from \$10.20 to \$11.16 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$14,881 or \$10.66 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$27,286. The subject property has an improvement assessment of \$22,099 or \$15.83 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of frame or frame and masonry exterior construction containing from 1,248 to 1,396 square feet of living area. The dwellings are either 40 or 42 years old and have full finished basements. Three comparables have central air conditioning and one fireplace, and each comparable has a two-car garage. The comparables have improvement assessments that range from \$20,901 to \$22,202 or from \$15.90 to \$17.69 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board recognizes there is a discrepancy with the reporting of the appellant's comparables #2 and #3 as having a “Craw and Formal Rec. Room” foundation. However, the Board finds this discrepancy does not impact the Board's decision. The Board gives less weight to the appellant's comparables due to their considerably larger dwelling sizes when compared to the subject.

The Board gives greater weight and finds the best evidence of assessment equity to be the board of review comparables, which are closer in dwelling size to the subject property and most similar in location, design, age, and most features. In addition, board of review comparable #4 is identical to the subject in age, dwelling size, foundation, and other features. The board of review comparables have improvement assessments ranging from \$20,901 to \$22,202 or from \$15.90 to \$17.69 per square foot of living area. The subject's improvement assessment of \$22,099 or \$15.83 per square foot of living area falls within the range established by the best comparables contained in this record on an overall basis and slightly below the range on a per-square-foot basis. The subject's improvement assessment is further supported by the board of review comparable #4 which is the best comparable contained in this record and has an improvement assessment of \$22,202 or \$15.90 per square foot of living area. After considering adjustments

and differences in both parties' comparables, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
