

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Kantrowitz
DOCKET NO.: 16-38837.001-R-1
PARCEL NO.: 10-28-227-034-0000

The parties of record before the Property Tax Appeal Board are Mark Kantrowitz, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,979
IMPR.: \$72,029
TOTAL: \$80,008

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 4,647 square feet of living area. The dwelling is 10 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces, and a three-car garage. The property has a 9,672 square foot site and is located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables. The comparables are improved with class 2-08 dwellings of masonry exterior construction that range in size from 4,039 to 4,952 square feet of living area. The dwellings range in age from 9 to 61 years old and have partial or full basements with finished areas. Each comparable has central air

conditioning, one or two fireplaces, and a two-car or a three-car garage. The comparables have improvement assessments ranging from \$28,136 to \$72,091 or from \$6.78 or \$14.56 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$52,836 or \$11.37 per square foot of living area. As part of the submission, the Board recognizes the appellant reported two parcel identification numbers for two of the comparables; and the appellant's grid analysis did not disclose the individual land and improvement assessments for each of the comparable's two parcels.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$80,008. The subject property has an improvement assessment of \$72,029 or \$15.50 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables. The comparables are improved with class 2-08 dwellings of masonry exterior construction that range in size from 3,899 to 4,725 square feet of living area. The dwellings range in age from 9 to 13 years old and have full basements, two of which have finished areas. Each comparable has central air conditioning, one or two fireplaces, and a two-car or a three-car garage. The comparables have improvement assessments ranging from \$34,134 to \$78,870 or from \$8.75 to \$17.09 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board recognizes five of the seven comparables have dissimilar partial or full finished basements when compared to the subject's full unfinished basements. The Board gives less weight to the appellant's comparables #2 and the board of review comparables #1 and #2 due to their considerably older age and/or considerably smaller dwelling size when compared to the subject. The Board also gives reduced weight to the appellant's comparable #1 as it appears to be outlier with its dwelling size and significantly lower improvement assessment in comparison to the other comparables in this record.

The Board finds the best evidence of assessment equity to be the appellant's comparable #3 and the board of review comparables #3 and #4, as they are most similar to the subject in design, exterior construction, age, dwelling size and most features. These comparables have improvement assessments ranging from \$14.56 to \$17.09 per square foot of living area. The subject's improvement assessment of \$15.50 per square foot of living area falls within the range established by the most similar comparables in the record. After considering adjustments to these comparables for differences when compared to the subject, the Board finds the appellant

did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
