

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Spencer Roman
DOCKET NO.: 16-42968.001-R-1
PARCEL NO.: 14-29-302-339-0000

The parties of record before the Property Tax Appeal Board are Spencer Roman, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,670
IMPR.: \$46,387
TOTAL: \$57,057

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Property Tax Appeal Board pursuant to section 16-185 of the Property Tax Code (35 ILCS 200/16-185) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story dwelling of masonry exterior construction containing 2,082 square feet of living area. The dwelling is approximately 23 years old. Features of the subject include a slab foundation, central air conditioning, one fireplace, and a one-car garage. The property has a 1,026 square foot site located at Chicago, Lake View Township, Cook County. The subject is a Class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code and the same tax block as the subject property. The comparables are improved with class 2-95 dwellings of masonry exterior construction that range in size from 2,057 to 2,425 square feet of living area. The dwellings are

26 or 28 years old, have slab foundations, central air conditioning, one fireplace, and a one-car garage. The comparables have improvement assessments ranging from \$45,480 to \$50,750 or from \$20.93 to \$22.63 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$46,000 or \$16.65 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,863. The subject property has an improvement assessment of \$57,193 or \$27.47 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. Three of the comparables are also located on the subject's same tax block, and one comparable is located within .25 a mile of the subject property. The comparables are improved with class 2-95 dwellings of masonry exterior construction containing 1,667 or 2,016 square feet of living area. The dwellings are 22 or 25 years old, have a slab foundation, central air conditioning, and one or two fireplaces. Three of the comparables have a one-car garage. The comparables have improvement assessments ranging from \$46,613 to \$62,019 or from \$27.96 to \$30.76 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the evidence in the record supports a reduction to the subject's assessment.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #1 and the board of review comparables due to significant differences in their dwelling sizes, dissimilar foundation, and/or lack of a garage when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2 and #3. These two comparables are most similar to the subject in location, design, dwelling size, slab foundation, and other features. These two comparables have improvement assessments of \$22.11 and \$22.63 per square foot of living area. The subject's improvement assessment of \$27.47 per square foot of living area is above the two best comparables contained in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
