

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: CSMA BLT, LLC
DOCKET NO.: 17-01121.001-R-1
PARCEL NO.: 08-20-209-034

The parties of record before the Property Tax Appeal Board are CSMA BLT, LLC, the appellant, by attorney Abby L. Strauss, of Schiller Strauss & Lavin PC, in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,572
IMPR.: \$22,075
TOTAL: \$26,647

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of brick exterior construction with 1,086 square feet of living area. The dwelling was constructed in 1925 with an effective age of 1955. Features of the home include a full unfinished basement and a detached 308 square foot garage. The property has a 4,321 square foot site and is located in Waukegan, Waukegan Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal challenging the improvement assessment; no dispute was raised concerning the land assessment. In support of this inequity argument, the appellant submitted information on eight comparables located within .48 of a mile from the subject property. The comparables consist of one-story dwellings of wood siding exterior construction that were built between 1920 and 1930. The comparables range in size from 1,036 to 1,424 square feet of living area. Each comparable has a full unfinished

basement. Four of the comparables have central air conditioning and comparables #5 and #7 each have a fireplace. Comparables #4 through #8 each have a garage ranging in size from 192 to 504 square feet of building area. The comparables have improvement assessments ranging from \$14,090 to \$19,239 or from \$13.42 to \$13.77 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$13.58 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$26,647. The subject property has an improvement assessment of \$22,075 or \$20.33 per square foot of living area.

In response to the appellant's evidence, the Waukegan Township Assessor's Office submitted a memorandum noting that none of the appellant's comparable dwellings have brick exterior construction like the subject and additionally, comparables #1 through #3 lack a garage amenity which is a feature of the subject property. In addition, based upon information found on the internet, the subject property has been remodeled and has an adjusted effective age as depicted on the property record card.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within .23 of a mile of the subject property. The comparables consist of one-story dwellings of wood siding exterior construction that were built between 1920 and 1940. The comparables range in size from 952 to 1,163 square feet of living area. Each comparable has a full unfinished basement. Three of the comparables have central air conditioning and comparable #2 has a fireplace. Each comparable also has a garage ranging in size from 280 to 480 square feet of building area. The comparables have improvement assessments ranging from \$16,698 to \$23,631 or from \$17.25 to \$22.04 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented a total of twelve equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables #1 through #3 as these dwellings lack a garage amenity which is a feature of the subject property.

The Board finds the best evidence of assessment equity to be appellant's comparables #4 through #8 along with the board of review comparables which are most similar to the subject in location,

age, size and several features; none of these comparable have the brick exterior construction of the subject dwelling or the newer effective age of 1955 that has been assigned to the subject dwelling. These nine comparables had improvement assessments that ranged from \$14,268 to \$23,631 or from \$13.51 to \$22.04 per square foot of living area. The subject's improvement assessment of \$22,075 or \$20.33 per square foot of living area falls within the range established by the best comparables in this record and appears justified when giving due consideration to the subject's brick exterior construction and newer effective age of 1955. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
