

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: CSMA BLT, LLC  
DOCKET NO.: 17-01123.001-R-1  
PARCEL NO.: 04-21-306-022

The parties of record before the Property Tax Appeal Board are CSMA BLT, LLC, the appellant, by attorney Abby L. Strauss, of Schiller Strauss & Lavin PC, in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,870  
**IMPR.:** \$12,874  
**TOTAL:** \$16,744

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of aluminum siding exterior construction with 1,144 square feet of living area. The dwelling was constructed in 1928. Features of the home include a crawl-space foundation. The property has a 7,250 square foot site and is located in Zion, Zion Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal challenging the improvement assessment; no dispute was raised concerning the land assessment. In support of this inequity argument, the appellant submitted information on six comparables located within .82 of a mile from the subject property. The comparables consist of two-story dwellings of stucco, aluminum or wood siding exterior construction that were built between 1906 and 1918. The comparables range in size from 1,010 to 1,572 square feet of living area. Each comparable has a partial or full unfinished basement. Three of the comparables have central air conditioning

and comparable #4 has a fireplace. Three of the comparables each have a garage ranging in size from 336 to 528 square feet of building area. The comparables have improvement assessments ranging from \$2,880 to \$11,382 or from \$2.68 to \$9.67 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$6.73 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$16,744. The subject property has an improvement assessment of \$12,874 or \$11.25 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on eight equity comparables located within .86 of a mile from the subject property. The comparables consist of two-story dwellings of stucco, aluminum or wood siding exterior construction that were built between 1906 and 1946. The comparables range in size from 1,004 to 1,251 square feet of living area. Each comparable has a concrete slab or crawl-space foundation. Comparable #3 has central air conditioning and each comparable has a garage ranging in size from 280 to 704 square feet of building area. The comparables have improvement assessments ranging from \$14,770 to \$19,975 or from \$12.75 to \$18.36 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented a total of fourteen equity comparables to support their respective positions before the Property Tax Appeal Board. None of the comparables are particularly similar to the subject in age, exterior construction, size, foundation and/or garage amenity. The fourteen comparables had improvement assessments that ranged from \$2,880 to \$19,975 or from \$2.68 to \$18.36 per square foot of living area. The subject's improvement assessment of \$12,874 or \$11.25 per square foot of living area falls within the range established by the comparables in this record and after giving due consideration to the subject's crawl-space foundation, lack a garage and lack of air conditioning appears to be supported. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation.

A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
