

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Aloisio and Antonnia Chiovari
DOCKET NO.: 17-02263.001-R-1
PARCEL NO.: 14-36-402-008

The parties of record before the Property Tax Appeal Board are Aloisio and Antonnia Chiovari, the appellants, by attorney Ronald Kingsley of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$49,793
IMPR.: \$114,097
TOTAL: \$163,890

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a one-story brick single-family dwelling built in 1974. The home contains 2,588 square feet of living area and features a full unfinished basement, central air conditioning, a fireplace, and a 736-square foot garage. The dwelling is situated on a 43,081 square foot site that backs to a forest preserve and is located in Long Grove, Ela Township, Lake County.

The appellants' appeal is based on overvaluation. In support of this argument, the appellants submitted information on three comparable sales located within .89 of a mile from the subject and all have the same neighborhood code as the subject. The dwellings were built from 1970 to 1978 and consist of one-story brick single-family dwellings. The houses are situated on sites ranging in size from 39,898 to 44,390 square feet of land area and range in size from 2,497 to 2,745 square feet of living area. According to the grid analysis and listing sheets submitted by

appellants' attorney, the comparables each have a basement, one with finished area, central air conditioning, one or two fireplaces, and a garage ranging in size from 552 to 614 square feet of building area. The listing sheet for appellants' comparable #1 states that the home is a recent rehab and has an updated kitchen and updated baths. The listing sheet for appellants' comparable #3 discloses this is a "2016 complete redo", situated on a golf course lot featuring a walkout finished basement with a playroom and great storage. The comparables sold from June 2016 to April 2017 for prices ranging from \$423,500 to \$548,000 or from \$169.60 to \$199.64 per square foot of living area, including land. Based on this evidence, the appellants requested an assessment of \$155,265, reflecting a market value of approximately \$465,795 or \$179.98 per square foot of living area, land included.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$163,890. The subject's assessment reflects a market value of approximately \$494,389 or \$191.03 per square foot of living area, land included, when using the 2017 three-year average median level of assessment for Lake County of 33.15% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted a grid analysis containing information on four comparable sales, two of which were also submitted by the appellants. The properties are located within .873 of a mile from the subject and have the same neighborhood code as the subject. The dwellings consist of one-story brick single-family dwellings situated on sites containing from 38,929 to 42,641 square feet of land area. Two of these are golf course lots and one backs-up to Route 53. The homes were built from 1964 to 1978 and range in size from 2,520 to 2,745 square feet of living area. The comparables each have a full or partial basement, one with finished area according to the listing sheet, central air conditioning, one or two fireplaces, and a garage ranging in size from 506 to 1,039 square feet of building area. Comparable #3 features an inground swimming pool according to the property record card. The comparables sold from July 2016 to August 2018 for prices ranging from \$450,000 to \$582,000 or from \$178.57 to \$215.24 per square foot of living area, including land. Based on the foregoing evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of five comparable sales to support their respective positions before the Property Tax Appeal Board as appellants' comparables #2 and #3 were the same properties as board of review comparables #1 and #2. The Board gave less weight to board of review comparable #3 which has an inground swimming pool, dissimilar to the subject, and comparable #4 as its August 2018 sale is too remote in time to be relevant to the January 1, 2017 assessment date at issue.

The Board finds that parties' three remaining comparables were the best comparables submitted in the record in terms of location, design, age, size and most features. These comparables sold from June 2016 to April 2017 for prices ranging from \$423,500 to \$548,000 or from \$169.60 to \$199.64 per square of living area, land included. The subject's assessment reflects an estimated market value of \$494,389 or \$191.03 per square foot of living area, land included, which falls within the range established by the best comparable sales submitted for the Board's consideration. After considering adjustments to the comparables for any differences from the subject, the Board finds the subject's assessed value appears to be supported and no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
