

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Barry Rosenbloom  
DOCKET NO.: 17-02458.001-R-1  
PARCEL NO.: 15-33-105-019

The parties of record before the Property Tax Appeal Board are Barry Rosenbloom, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$26,996  
**IMPR.:** \$120,250  
**TOTAL:** \$147,246

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of wood siding exterior construction with 2,377 square feet of living area. The dwelling was constructed in 1985. Features of the home include a partial basement with finished area, central air conditioning and a 400 square foot attached garage. The property has a 9,332 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on three comparable sales located within 0.50 of a mile from the subject property. The comparables have sites that range in size from 6,825 to 11,877 square feet of land area and are improved with two-story dwellings of wood siding exterior construction that range in size from 2,165 to 2,470 square feet of living area. The homes were built from 1978 to 1988. Each comparable has a full or partial basement with finished area, central air conditioning,

one fireplace and a garage with 440 or 460 square feet of building area. The comparables sold in August or September 2016 for prices ranging from \$375,000 to \$429,000 or from \$173.21 to \$174.96 per square foot of living area, land included. Based on this evidence, the appellant requested the subject's assessment be reduced to \$138,645.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$147,246. The subject's assessment reflects a market value of \$444,181 or \$186.87 per square foot of living area, land included, when using the 2017 three year average median level of assessment for Lake County of 33.15% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted a grid analysis and property record cards on eight comparable sales located within approximately 0.42 of a mile from the subject property. Board of review comparables #4 and #8 are the same properties as the appellant's comparables #3 and #2, respectively. The comparables have sites that range in size from 6,825 to 11,453 square feet of land area and are improved with two-story dwellings of wood siding exterior construction that range in size from 2,266 to 2,470 square feet of living area. The homes were built from 1978 to 1987. Six comparables have partial basements with finished area and two comparables have a concrete slab foundation. Each comparable has central air conditioning and a garage ranging in size from 400 to 460 square feet of building area. Seven of the comparables also have one fireplace. The comparables sold from July 2016 to August 2018 for prices ranging from \$427,500 to \$482,500 or from \$173.68 to \$212.93 per square foot of living area, land included. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine comparables for the Board's consideration where two of the comparables are common to both parties. The Board gave less weight to appellant's comparable #1 due to smaller finished basement area when compared to the subject. The Board gave little weight to the board of review comparables #5 and #6 due to their inferior concrete slab foundation compared to the subject's finished basement. Less weight was given to board of review comparable #1 due to its sale date in 2018, which occurred over one year after the subject's January 1, 2017 assessment date to be considered a reliable indicator of value. The Board also gave little weight to the board of review comparable #7 which appears to be an outlier with respect to overall higher sale price when compared to other similar comparables in the record. The Board finds the best evidence of market value to be the remaining four comparables which includes the two common comparables. These best comparables are more similar in location, age, dwelling size, basement finished area and most features. Each of these comparables have smaller site sizes when compared to the subject and sold from August 2016 to

July 2017 for prices ranging from \$427,500 to \$465,000 or from \$173.68 to \$189.02 per square foot of living area, including land. The subject's assessment reflects a market value of \$444,181 or \$186.87 per square foot of living area, including land, which falls within the range established by the best comparable sales in this record. After considering adjustments to the comparables for differences with the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
