

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kevin Lenihan
DOCKET NO.: 17-03004.001-R-1
PARCEL NO.: 07-01-212-009

The parties of record before the Property Tax Appeal Board are Kevin Lenihan, the appellant; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the Lake County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,903
IMPR.: \$45,785
TOTAL: \$51,688

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a split-level single-family dwelling with wood-siding exterior containing 1,347 square feet of above-grade living area. The dwelling was constructed in 1987. Features of the home include a finished lower level with 1,102 square feet, central air conditioning, one fireplace and an attached garage with 460 square feet of building area. The property has a 7,670-square foot site and is located in Waukegan, Warren Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted an analysis composed of fifteen comparable sales improved with split-level, tri-level single-family dwellings.¹ The dwellings range in size from 984 to 1,452 square feet of above-grade living area and were built from 1977 to 1994. Two comparables have unfinished

basements and each comparable has a finished lower level; ten dwellings have central air conditioning; two homes each have a fireplace; and ten comparables have garages ranging in size from 440 to 792 square feet of building area. The properties are located from .99 of a mile to 4.54 miles from the subject property. The sales occurred from September 2015 to October 2017 for prices ranging from \$10 to \$179,000 or from \$.01 to \$123.28 per square foot of above-grade living area, including land. The appellant requested the subject's assessment be reduced to \$23,331 reflecting a market value of approximately \$70,380 or \$52.25 per square foot of above-grade living area, land included.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$51,688. The subject's assessment reflects a market value of \$155,922 or \$115.75 per square foot of living area, land included, when using the 2017 three-year average median level of assessment for Lake County of 33.15% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on seven comparable sales improved with five split-level and two tri-level style dwellings with wood or aluminum-siding exteriors that range in size from 1,200 to 1,348 square feet of above-grade living area. The dwellings were constructed from 1979 to 1990. Each comparable has a finished lower level ranging in size from 600 to 1,144 square feet, six dwellings each have central air conditioning and a fireplace; and each property has a garage ranging in size from 398 to 576 square feet of building area. The comparables are located from .184 to .964 of a mile from the subject property. The sales occurred from March 2015 to October 2017 for prices ranging from \$152,000 to \$202,000 or from \$125.20 to \$149.85 per square foot of living area, including land. The board of review requested the subject's assessment be sustained.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of twenty-two comparable sales for the Board's consideration. The Board gave less weight to the appellant's comparable sales, except sale #5, due to their more distant locations from the subject property than were the board of review comparables. Only two of the appellant's comparables were located less than 2 miles from the subject property; one of those comparables sold for \$10, which does not appear to be representative of fair cash value when considering all the sales in this record; the other comparable had a dissimilar one-story design. The Board also gave less weight to board of review comparables #2 and #6 due to their sale dates in March and September 2015 being less proximate in time to the subject's January 1, 2017 assessment date and, thus, less likely to be reflective of subject's market value as of the assessment date.

The Board finds the best evidence of market value to be appellant's comparable #5 and the comparable sales #1, #3, #4, #5 and #7 provided by the board of review. These sales were more similar in location relative to the subject property than were the sales provided by the appellant. These properties were also similar to the subject in age, style, size and features. These most similar comparables sold for prices ranging from \$77,200 to \$202,000 or from \$76.89 to \$149.85 per square foot of living area, including land. The subject's assessment reflects a market value of \$155,922 or \$115.75 per square foot of living area, land included, which is within the range established by the best comparable sales in this record on a square foot basis and at the lower end of the range on an overall value basis, demonstrating the subject property is not overvalued for assessment purposes. Based on this evidence, the Board finds the assessment of the subject property as established by the board of review is correct and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
