

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel McConkie
DOCKET NO.: 17-05126.001-R-1
PARCEL NO.: 06-21-128-010

The parties of record before the Property Tax Appeal Board are Daniel McConkie, the appellant; and the DeKalb County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DeKalb** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,291
IMPR.: \$71,249
TOTAL: \$82,540

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DeKalb County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick and vinyl exterior construction with 2,340 square feet of living area.¹ The dwelling was constructed in 2004. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 672 square foot garage. The property has a .32-acre site and is located in Heron Creek Phase 6 subdivision, Sycamore, Sycamore Township, DeKalb County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis and property record

¹ The parties each provided a property record card of the subject property which present a slight dwelling size discrepancy. The Property Tax Appeal Board finds the size dispute does not prevent a determination of the correct assessment.

cards on four equity comparables.² The appellant also provided a GIS map depicting the location of the subject and the comparables. The comparables are described as two-story dwellings of brick and vinyl exterior construction ranging in size from 3,152 to 3,445 square feet of living area. The dwellings are from 9 to 11 years old. The comparables have full unfinished basements,³ central air conditioning, one fireplace and a garage ranging in size from 487 to 732 square feet of building area. The comparables have improvement assessments ranging from \$64,934 to \$76,616 or from \$19.24 to \$24.31 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$49,239 or \$21.39 square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$82,540. The subject property has an improvement assessment of \$71,249 or \$30.45 per square foot of living area.

In response to the appeal, the board of review asserted that the appellant's comparables are located outside of the subject's Heron Creek Phase 6 subdivision.

In support of its contention of the correct assessment, the board of review submitted a grid analysis of four equity comparables located within Heron Creek Phase 6 subdivision which was described as a planned unit development.⁴ The board of review provided a map of the subdivision depicting the location of the comparables in relation to the subject. The comparables consist of two-story dwellings of brick and vinyl siding exterior construction ranging in size from 2,324 to 2,439 square feet of living area. The dwellings were constructed from 2004 to 2006. Each comparable features an unfinished basement, central air conditioning, one fireplace and a garage ranging in size from 546 to 748 square feet of building area. The comparables have improvement assessments ranging from \$71,900 to \$78,631 or from \$29.57 to \$33.83 per square foot of living area. Based on the foregoing evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

² The property record cards submitted by the appellant disclosed that none of the appellant's comparables are located within subject's subdivision, however each is in the same tax code as the subject.

³ The descriptions of the dwelling foundations of the appellant's comparables were taken from the property record cards provided by the appellant.

⁴ The board of review provided property record cards for comparables #1, #2 and #3.

The parties submitted seven equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables as they are located outside of the subject's subdivision and have significantly larger dwelling sizes when compared to the subject's dwelling size.

The Board finds the best evidence of assessment equity to be the board of review comparables. These comparables are more similar to the subject in location, dwelling size, design, age and features and have improvement assessments ranging from \$29.57 to \$33.83 per square foot of living area. The subject has an improvement assessment of \$30.45 per square foot of living area, which falls within the square foot range established by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
