

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James L. Halas
DOCKET NO.: 17-05621.001-R-1
PARCEL NO.: 01-28-106-017

The parties of record before the Property Tax Appeal Board are James L. Halas, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher, in Chicago, and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$25,430
IMPR.: \$41,300
TOTAL: \$66,730

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of brick exterior construction with 1,108 square feet of living area. The dwelling was built in 1962. Features of the home include a full unfinished basement, central air conditioning and a 440-square foot garage. The property has a 21,662 square foot site and is located in West Chicago, Wayne Township, DuPage County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted limited information on three equity comparables located within the same neighborhood code as is assigned to the subject property. The comparables consist of one-story dwellings of frame or brick exterior construction that were built from 1956 to 1960. The dwellings range in size from 1,152 to 1,751 square feet of living area. Each comparable has a full or partial basement and a garage ranging in size from 528 to 909 square feet of building area. Based upon data provided by the board of review, each

comparable has central air conditioning. The appellant's comparables have improvement assessments ranging from \$35,740 to \$58,370 or from \$31.02 to \$33.33 per square foot of living area. The appellant requested the improvement assessment be reduced to \$35,577 or \$32.11 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$66,730. The subject property has an improvement assessment of \$41,300 or \$37.27 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on five equity comparables. The comparables are located within .74 of a mile from the subject property. The comparables consist of one-story dwellings of frame, brick or aluminum siding exterior construction that were built from 1956 to 1971. The dwellings range in size from 1,054 to 1,196 square feet of living area. Each dwelling has a basement, three of which are from 30% to 50% finished, central air conditioning and garages ranging in size from 308 to 725 square feet of building area. One comparable has a fireplace. The comparables have improvement assessments ranging from \$40,480 to \$45,830 or from \$37.29 to \$41.29 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of eight suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 and #3 due to their larger dwelling sizes and/or differing basement sizes when compared to the subject property.

The Board finds appellant's comparable #2 and the board of review comparables were more similar to the subject in location, age, dwelling size, design and most features. These comparables had improvement assessments ranging from \$35,740 to \$45,830 or from \$31.02 to \$41.29 per square foot of living area. The subject's improvement assessment of \$41,300 or \$37.27 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
