

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Terry Herman
DOCKET NO.: 17-20134.001-R-1
PARCEL NO.: 11-19-411-012-0000

The parties of record before the Property Tax Appeal Board are Terry Herman, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,407
IMPR.: \$48,841
TOTAL: \$60,248

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of stucco exterior construction with 4,094 square feet of living area. The dwelling is approximately 108 years old. Features of the home include a full unfinished basement and a 2-car garage. The property has an 8,450 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject. The comparables are improved with two-story or three-story multi-family dwellings of masonry exterior construction ranging in size from 4,380 to 9,966 square feet of living area. The comparables range in age from 99 to 103 years old. Each

comparable has a full unfinished basement, and a 2-car to a 4-car garage. The comparables have improvement assessments ranging from \$51,616 to \$129,474 or from \$11.02 to \$12.99 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$48,841 or \$11.93 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$74,864. The subject property has an improvement assessment of \$63,457 or \$15.50 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. One comparable is located on the same block and three comparables are within .25 of a mile of the subject. The comparables are improved with two-story or three-story multi-family dwellings of masonry or stucco exterior construction ranging in size from 3,104 to 5,280 square feet of living area. The comparables range in age from 50 to 113 years old. Three comparables have a full unfinished basement and one comparable has a concrete slab foundation. Two comparables each have central air conditioning. Two comparables each have two fireplaces. Two comparables have a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$62,825 to \$80,256 or from \$15.20 to \$20.24 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gave more weight to the appellant's comparables #1 and #2 as they are most similar to the subject property in location, design, age, dwelling size, and basement. The best comparables have improvement assessments of \$51,616 and \$52,305 or \$11.78 and \$11.02 per square foot of living area, respectively. The subject's improvement assessment of \$63,457 or \$15.50 per square foot of living area is not supported by the best comparables in this record. The Board gave less weight to the remaining comparables due to their dissimilar dwelling sizes and/or inferior concrete slab foundation in contrast to the subject and its full unfinished basement. Based on this record, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
