

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Max Delsoin
DOCKET NO.: 17-20158.001-R-1
PARCEL NO.: 11-30-424-025-0000

The parties of record before the Property Tax Appeal Board are Max Delsoin, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,827
IMPR.: \$4,867
TOTAL: \$12,694

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story townhome of masonry exterior construction with 1,565 square feet of building area. The building is approximately 58 years old. Features of the home include a partial unfinished basement and central air conditioning. The property has a 2,525 square foot site and is located in Chicago, Rogers Park Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject. The comparables are improved with one-story or two-story townhomes of masonry exterior construction ranging in size from 1,152 to 1,292 square feet of building area. The comparables range in age from 51 to 57 years old. Each comparable

has a partial or a full basement with finished area. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$3,110 to \$4,229 or from \$2.41 to \$3.67 per square foot of building area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$4,867 or \$3.11 per square foot of building area.

The Board finds the board of review did not submit any evidence in support of its assessment of the subject property or to refute the appellant's argument as required by section 1910.40(a) of the rules of the Property Tax Appeal Board and is found to be in default pursuant to section 1910.69(a) of the rules of the Property Tax Appeal Board.

The appellant's submission included a copy of the final decision from the Cook County Board of review revealing the subject had an improvement assessment of \$11,561 or \$7.39 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the board of review did not submit any evidence in support of its assessment of the subject property or to refute the appellant's argument as required by section 1910.40(a) of the rules of the Property Tax Appeal Board and is found to be in default pursuant to section 1910.69(a) of the rules of the Property Tax Appeal Board.

The Board finds the only evidence of assessment equity was submitted by the appellant. The Board further finds that no comparable was particularly similar to the subject in dwelling size and/or foundation, as each comparable has a smaller dwelling size and a finished basement in contrast to the subject and its unfinished basement. In addition, one comparable has a one-story design compared to the subject's two-story design. The appellant's comparables were similar to the subject in location, exterior construction, age and features. These comparables have improvement assessments ranging from \$2.41 to \$3.67 per square foot of living area. The subject's improvement assessment of \$7.39 per square foot of living area falls above the range established by the comparables in this record and is not supported. The board of review did not submit any evidence in support of the subject's assessment. Based on this record, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
