

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eduardo Gutierrez
DOCKET NO.: 17-20177.001-R-1
PARCEL NO.: 11-31-214-026-0000

The parties of record before the Property Tax Appeal Board are Eduardo Gutierrez, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,514
IMPR.: \$29,719
TOTAL: \$37,233

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 3,735 square feet of living area. The dwelling is approximately 107 years old. Features of the home include a full finished basement apartment. The property has a 5,780 square foot site and is located in Chicago, Rogers Park Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject. The comparables are improved with two-story or three-story multi-family dwellings of masonry exterior construction ranging in size from 4,335 to 4,704 square feet of living area. The comparables range in age from 93 to 107 years old. Each

comparable has a full basement with one having finished area. One comparable has three fireplaces. Each comparable has a two-car or a four-car garage. The comparables have improvement assessments ranging from \$29,478 to \$33,243 or from \$6.80 to \$7.07 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$25,846 or \$6.92 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$37,233. The subject property has an improvement assessment of \$29,719 or \$7.96 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and .25 of a mile from the subject property. The comparables are improved with two-story multi-family dwellings of masonry exterior construction ranging from 2,978 to 3,632 square feet of living area. The comparables range in age from 102 to 117 years old. Each comparable has a full basement, two with finished basement apartments. Two comparables have one or two fireplaces. Two comparables have a two-car or a four-car garage. The comparables have improvement assessments ranging from \$27,284 to \$30,472 or from \$8.39 to \$9.17 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gave more weight to the board of review's comparables #3 and #4 as they are similar to the subject in location, design, exterior construction, age, dwelling size, and features. These comparables have improvement assessments of \$27,795 and \$30,472 or \$8.69 and \$8.39 per square foot of living area, respectively. The subject's improvement assessment of \$29,719 or \$7.96 per square foot of living area is supported by the best comparables in this record. The Board gave less weight to the remaining comparables due to their dissimilar dwelling sizes, age and/or three-story designs in contrast to the subject and its two-story design. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
