

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jamie Verbrugge
DOCKET NO.: 17-20516.001-R-1
PARCEL NO.: 02-21-100-010-0000

The parties of record before the Property Tax Appeal Board are Jamie Verbrugge, the appellant(s), by attorney Ciarra Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,853
IMPR.: \$68,428
TOTAL: \$80,281

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 67,736 square foot parcel of land improved with a 50-year old, two-story, masonry, single-family dwellings containing 4,571 square feet of building area. The property is located in Inverness, Palatine Township, Cook County and is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity and overvaluation as the bases of the appeal. In support of the equity argument, the appellant submitted five comparables. The properties are described as two-story, masonry or frame, single-family buildings. They range: in age from 28 to 55 years; in size from 4,322 to 4,605 square feet of building area; and in improvement assessment from \$13.38 to \$14.10 per square foot of building area.

In support of the market value argument, the appellant submitted the sale of two properties as proof of the subject's market value. These properties are two-story, masonry or frame and masonry, single-family dwellings containing 5,644 and 5,260 square feet of building area. They sold in December 2015 and November 2015 for \$700,000 and \$635,000 or \$124.03 and \$133.88 per square foot of building area, respectively.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$88,477 with an improvement assessment of \$76,624 or \$16.76 per square foot of building area. The total assessment reflects a market value of \$884,770 or \$193.56 per square foot of building area using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%.

In support of the assessment, the board of review submitted four comparables. These properties are described as two-story, masonry or frame, single-family buildings. They range: in age from 27 to 50; in size from 3,981 to 4,315 square feet of building area; and in improvement assessments from \$15.10 to \$17.75 per square foot of building area. Comparable #1 sold in January 2014 for \$790,000 or \$198.44 per square foot of building area.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The parties submitted a total of three comparables in support of the subject's market value. They sold from January 2014 to November 2016 for prices ranging from \$124.03 to \$198.44 per square foot of building area. In comparison, the subject's assessment reflects a market value of \$193.56 per square foot of building area which is within the purchase prices of the comparables in the record. Based on this record the Board finds the appellant did not demonstrate by a preponderance of the evidence that the subject was overvalued and a reduction in the subject's assessment is not justified.

The taxpayer also contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b).

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #3, and #5 and the board of review's comparables #1, #2, and #3. These comparables had

improvement assessments ranging from \$13.38 to \$17.75 per square foot of building area. The remaining comparables were given diminished weight due to differences in construction. The subject's improvement assessment of \$14.97 per square foot of building area is within the range of the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
