

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Saputo
DOCKET NO.: 17-21021.001-R-1
PARCEL NO.: 02-26-102-021-0000

The parties of record before the Property Tax Appeal Board are William Saputo, the appellant, by Amy C. Floyd, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,255
IMPR.: \$25,431
TOTAL: \$28,686

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry exterior construction with 1,392 square feet of living area. The dwelling is approximately 37 years old. Features of the home include a partial basement with finished area, one fireplace and a two-car garage. The property has a 10,016 square foot site located in Palatine, Palatine Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject property.¹ The comparables are improved with multi-level dwellings of frame or frame and masonry exterior construction

¹ The grid analysis submitted by the appellant was incomplete and did not provide sufficient details to clearly describe the number of fireplaces or garage areas for each comparable.

ranging in size from 1,112 to 1,476 square feet of living area. The comparables range in age from 31 to 53 years old. Each comparable has a partial basement with finished area and central air conditioning and one comparable has a least one fireplace. The comparables have improvement assessments ranging from \$16,744 to \$21,712 or from \$14.62 to \$15.96 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$20,727 or \$14.89 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,686. The subject property has an improvement assessment of \$25,431 or \$18.27 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject property. The comparables are improved with multi-level dwellings of frame or frame and masonry exterior construction ranging in size from 1,156 to 1,392 square feet of living area. The comparables range in age from 37 to 51 years old. Each comparable has a partial basement with finished area, one fireplace and a two-car to a three-car garage and three comparables have central air conditioning. The comparables have improvement assessments ranging from \$24,454 to \$26,764 or from \$18.81 to \$22.72 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 through #3 and the board of review's comparables #3 and #4 due to their older ages and/or smaller dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4 and the board of review's comparables #1 and #2 as they are most similar to the subject property in location, design, age, dwelling size and most features. The Board gave most weight to the board of review's comparable #1 as it is identical to the subject in location being on the same block and with a practically identical property index number, age, dwelling size and most features. The best comparables have improvement assessments ranging from \$18,767 to \$26,764 or from \$15.96 to \$22.72 per square foot of living area. The subject's improvement assessment of \$25,431 or \$18.27 per square foot of living area falls below the assessments of the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. *Apex Motor Fuel Co. v. Barrett*, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
